RUSH TREATY, URGES WILSON

Troops Dash Across Border After Bandits Who Free U. S. Airmen When Given Ransom

PRISONERS REPORTED SAFE AT MARFA

Captain Matlock Who Gave \$15,000 to Mexicans Brings Aviators

GOVERNMENT TO REPAY MEN WHO RAISED CASH

Messages From Fliers Say They Are Unhurt; Recruit Texas Guard

WASHINGTON, Aug. 19.—Secretary of War Baker in the first statement he has issued on the kidnapping of the two army aviators late today declared that he had ordered a "swiftly moving force to take up pursuit of the bandit captors." This statement came several hours after word reached the department that Col. Longhorne had led troops of the Eighth cavalry in pursuit of the bandits. The Mexican government will provide ransom money demanded by the bandits, Ygnacio Bonillas, Mexican ambassador said here today.

EL PASO, Tex., Aug. 19.—Lieutenants H. G. Peterson and Paul H. Davis, set free by Mexican bandits on payment of \$15,000 ransom, arrived on the American side of the border early today, according to reports from Marfa, Texas.

Captain Matlock of the Eighth United States cavalry, carried the ransom money to the bandits' camp, returning with Davis, while Peterson preceded them. The ransom money, raised by private subscription in the vicinity of Marfa, reached Camalero, Texas, opposite the bandits' hiding place, last night. Captain Matlock, in charge of a small squad of cavalrymen escorting Vice-President F. M. Fennell of the Marfa bank with the money, was selected to carry the ransom across the border. Signal lights had been agreed upon. Matlock crossed alone.

The aviators' story of their experiences since crashing down during a patrol flight August 10 is expected to bear out the belief that they were taken prisoners by a roving Mexican band on the American side of the Big Bend district. Messages from both men had stated they were uninjured. The donors of the ransom will be reimbursed by the United States government, according to word here from Major General T. Dickman, commanding the southern department.

General Gomez Denies Oil Men's Story About Troops

MEXICO CITY, Aug. 19.—General Arnulfo Gomez, commander of the federal forces at Tampico today indignantly denied the charges of foreign oil companies regarding the danger of attack if Mexican escorts were provided. He declared there was no truth in the charges that Carranza's troops were unreliable.

The party of bandits held responsible.

Limit Profit of Seller to Pare Down Food Costs

Senator Johnson

California Senator Favors Bank Interest Plan For Producer, Merchant

WASHINGTON, Aug. 18.—Senator Hiram Johnson of California, has been a keen student of ways to reduce the high cost of living. He has reached the conclusion that one way to bring necessities of life to a reasonable level is to limit profits of the producers and merchants alike.

Bank interest is fixed by law, says Senator Johnson. The same plan applied to the producer and merchant would bring prices to where they ought to be.

GOVERNORS DISCUSS STATE COMMISSIONS

SALT LAKE CITY, Utah, Aug. 19.—State administrative boards and commissions—the subject of many a bitter fight in legislatures throughout the nation this year—came up for consideration this morning at the first business session of the annual convention of the governors of states. Executives of several states where there has been a consolidation of state boards and bureaus gave their opinions as to whether such consolidations really effect economies or allow loopholes for waste.

State budget questions were also informally discussed.

A visit to the Great Salt Lake and dinner at Saltair were events arranged for late afternoon and evening.

OIL MEN WILL MEET TO DISCUSS WAGES

LOS ANGELES, Aug. 19.—At a conference of representatives of the oil refineries of Southern California and their employees in the office of Federal Labor Conciliator C. T. Connell yesterday, it was agreed that in order to save time each side should repair to a downtown office and formulate its plan for classification of workers who are to enjoy the proposed increases in wages and improvements in working conditions.

Tomorrow and Thursday the producing companies and departments will meet the drillers, helpers, rig builders and other field laborers in the mediator's office and endeavor to reach a final agreement as to the new wage scale and working conditions. Friday and Saturday a like procedure will be adopted with the pipeline representatives and their workers.

MONARCHY IN HUNGARY

ROME, Aug. 19.—A dispatch to the Popolo Romano from Trieste reported today that the issuance of a decree restoring the monarchy in Hungary appeared to be imminent. It was also reported that efforts were being made to form a union between Hungary, Rumania and Serbia. The Corriere della Sera ridicules the report.

TWO MILLION POUNDS BUTTER, HUNDREDS OF TONS OF BEANS TO BE SEIZED IN SAN FRANCISCO

SAN FRANCISCO, Aug. 19.—Two million pounds of butter, hundreds of tons of beans and vast quantities of eggs, rice and coffee are stored in San Francisco warehouses, according to department of justice agents. Two fifths of the daily milk output of this vicinity is being diverted daily to keep the prices up, they further allege.

Libel warrants for seizure of these foods will be issued today, it is expected, and be followed by court proceedings to authorize sale to the public at fair prices.

A large portion of the beans stored are of the 1916 crop, which sold for \$15.75 per ton. These beans now sell for \$30 and more per ton. There are also large holdings of the 1917 and 1918 crop, according to officials.

P. E. SERVICE IMPROVES AS NEW MEN ARE PUT TO WORK

LOS ANGELES, Aug. 19.—Action of Judge Works in issuing a temporary restraining order will have little effect in the fight for increased pay and collective bargaining, union leaders in the street strike here declared today.

The complaint filed by attorneys of the Los Angeles Railway company alleges the strikers have trespassed on the cars, threatened loyal employees, pulled off trolleys, interfered with the men who are operating the cars and with the business of the company and with picketing.

Resumption of regular interurban service is expected today following the report that the Pacific Electric company has imported 200 motormen and conductors from the north.

There was no service on either line last night.

Situation on P. E. Today

The situation on the Pacific Electric is as follows: The Edendale line has not been operating until today. The Venice line has better than normal service today. Extra service for the shipyards at San Pedro has been provided.

Forty-minute service between Long Beach and Los Angeles and between San Pedro and Los Angeles.

Through service to San Bernardino for the first time. Regular service on the Glendale line today.

The freight situation is fully recruited here.

Employment offices at the P. E. were opened at 8 a. m. today and will close at 10 p. m. because of the influx of men.

Night service will be suspended at 8 o'clock.

Four Santa Ana Cars Sent Out; No Service to Orange

Four cars were sent out to Los Angeles by the Pacific Electric today, leaving here at 6:20, 7:29, 10:29 and 12:29, and it was planned to have two or three others out this afternoon. There was no service on the Orange line today. The freight train, abandoned at Stanton Saturday, was brought in last night, and another freight shipment was expected to be brought down from Los Angeles this evening. Local P. E. officials are assured the company has a number of new men and a noticeable improvement in electric service is expected tomorrow.

INCOME TAX PAYMENT DUE ON SEPTEMBER 15

LOS ANGELES, Aug. 19.—The next installment of income taxes will be delinquent after September 15.

HOUSE VOTES FOR BODY TO INVESTIGATE FOOD PRICES

WASHINGTON, Aug. 19.—The House today passed the Igou resolution asking the Federal Trade Commission to investigate food prices. The senate agricultural committee failed to reach a vote on amendments to the food control act proposed by Attorney General Palmer and appointed a subcommittee to confer with Palmer.

Hearings on the Kenyon and Kendrick packer bills were suspended until tomorrow, when packers will appear.

"I doubt very much whether the amendments will be reported out by the committee," Chairman Gronna said today. "A majority seem opposed to them. It is possible, however, that they may be modified by exempting farm organizations from proposed penalties."

The amendments would extend the food control act to cover clothing and would add a heavy penalty for profiteering. Farmers contended their organizations might be held liable under conspiracy clauses of the act.

The House Agricultural committee also plans to change radically Palmer's suggestion for amendment to the food control act.

Chairman Houghton today will submit amendments to the food control act which will provide for the proclamation of fair prices of all necessities by the President, with adequate power to severely punish all who sell above these figures.

The amendments have been framed after conferences with department of justice officials.

The amendments exempt farmers, farm organizations and firms with annual sales less than \$100,000.

"If you regulate the big fellows and tell the people what fair prices are, there won't be much chance for the little fellows to profiteer," he said.

PLEADS TRADING AT HOME, AND NOT FINED

PASADENA, Aug. 19.—The plea that she was trying to "trade at home" in Pasadena won Mrs. Caroline Pottenger, wife of Dr. Frank M. Pottenger of 275 South Orange Grove avenue, a suspended fine in Pasadena police court yesterday, but a charge of violating the traffic code. Mrs. Pottenger was convicted of leaving her car between a sign and a corner.

The defendant, handsomely dressed, advanced the novel defense that until four months ago she had gone elsewhere to do most of her trading and that she was just beginning to come up into the center of the city on her shopping trips, so was unfamiliar with traffic rules.

Are Alfonso and His Queen Looking for New Residence

Swiss Would Not Be Much Surprised If Spanish Ruler Abdicates

PARIS, Aug. 19.—King Alfonso and his queen are "summering" in Switzerland, but it is believed by many Swiss that they are also on other business. It is thought by some that they are looking for a nice place to alight in case they lose their throne if the "lid blows off."

There has been considerable unrest and rioting in Spain and in the light of world events since the great war started it would not be surprising if the Spanish ruler was compelled to abdicate. In that case, it is argued, he and his wife would seek asylum in some other country, probably Switzerland.

BULLETINS

NEW YORK, Aug. 19.—Twenty-five cars oranges sold. Market irregular. Prices ranged from 25 to 50 cents lower. Averages ranged from \$2.52 to \$7.13. Highest price, 11 boxes Hewes Park, \$7.35. No lemons quoted. Weather, cloudy; 8 a. m., temperature, 64.

WASHINGTON, Aug. 19.—The proposed Franco-American treaty is constitutional, the senate judiciary subcommittee decided today. The committee found nothing in the proposal that conflicts with the war-making power of congress. Senator Walsh of Montana was ordered to make a favorable report to the full committee. The vote was unanimous with Fall of New Mexico absent.

WASHINGTON, Aug. 19.—The repeal of the daylight saving law was today passed by the House over the veto of President Wilson. The vote to override the veto was 223 to 101.

DISORDERS IN SOFIA

LONDON, Aug. 19.—Sanguinary disorders in Sofia, Bulgarian capital, were reported today in a dispatch to the Daily Mail from Copenhagen. The dispatch stated demonstrators had gathered in front of the palace,

UNCLE SAM TO GET YAP ISLE CONTROL FOR PACIFIC BASE

WASHINGTON, Aug. 19.—The United States may obtain control of the island of Yap in the Pacific for naval and communication purposes, it developed today at President Wilson's conference with the Senate Foreign Relations committee.

Japan's secret agreement with Great Britain for disposal of Shantung and Germany's Pacific islands would not interfere with the United States getting an island in the Pacific, Wilson said.

American naval authorities have pointed out the importance of the United States having such a base and Wilson said he specified at the peace conference that control of Yap Island should be reserved for a general conference which is to be held on the ownership and operation of cables.

GIRL WITH ONE HAND IS EARNING \$4 A DAY

SACRAMENTO, Aug. 19.—Despite loss of her left hand in an accident, Miss Mina Train is making her own way through the world. She is now earning \$4.00 a day peeling and siting fruit in a local cannery, and by holding the fruit with her left elbow is able to work as rapidly as two-handed employees.

"PANCHO VILLA" WITH SOUSE IS CAPTURED

BISBEE, Ariz., Aug. 19.—"Pancho Villa, yo soy el hombre," proudly proclaimed a Mexican with a large sombrero and a larger "jag" in police court today.

The police judge, overlooking recent efforts of the federal government to seize Pancho, gave him ten days.

FAILURE TO ACT CAUSE OF GREAT UNREST

Readjustment of National Life to Normal, Held Up Says President

OTHER NATIONS OBTAIN LEAD IN WORLD TRADE

Executive Tells Senators No Doubt Exists About the Meaning of Pact

By L. C. MARTIN (United Press Staff Correspondent)

WASHINGTON, Aug. 19.—Urging that the senate expedite the ratification of the peace treaty, President Wilson today opened his conference with members of the senate foreign relations committee at the White House by making a long statement in which he said:

That the readjustment of our national life to normal conditions absolutely depends on getting the treaty out of the way.

That until it is out of the way the mines, factories and business of the country, both domestic and foreign, will be at a tremendous disadvantage. That Great Britain and other nations that have ratified the treaty will get the jump on the United States in a trade way.

That the only obstacle which appears to stand in the way of immediate ratification is doubt about the meaning of certain provisions of the league of nations.

No Doubt About Provisions. That there is no doubt in the minds of those who wrote the covenant that the so-called doubtful provisions mean exactly what the United States senate wants them to mean.

The president discussed the effect of reservations on article 10, the Monroe doctrine, withdrawal, and domestic questions. He declared there can be no objection to passing a resolution interpreting these provisions from the American point of view, but this resolution, he added, must be kept from the subject of ratification. If it is made a part of the ratification, the president said, it will force the United States to go to Germany begging her to accept our construction of the covenant and that is something, Wilson declared, which he is very reluctant to do.

By 10 o'clock, the hour set for the conference, practically every member of the committee was in the blue room of the White House, where the president met them.

The text of the president's address follows:

"I am sincerely glad that the committee should have responded in this way to my intimation that I would like to be of service to it. I welcome the opportunity for a frank and full interchange of views.

Decision Is Awaited.

"I hope, too, that this conference will serve to expedite your consideration of the treaty of peace. I beg that you will pardon and indulge me if I again urge that practically the whole task of bringing the country back to normal conditions of life and industry waits upon the decision of the senate with regard to the treaty of peace.

"I venture thus again to urge my advice that the action of the senate with regard to the treaty be taken at the earliest practicable moment, because the problems with which we

(Continued on page two)

We Sell Clothes That Are Their Own Salesmen

The man who selects his suit here needn't have any concern about his appearance. You always "feel sure" about the clothes you buy here. Sir! We're a splendid store to "tie to" for clothes. Ask the man who knows. Our new models are nothing short of clothes perfection. The most skillful craftsmen of the trade designed, cut and made the garments under expert supervision.

Priced at \$20.00 to \$40.00.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus, instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

DISABLED SOLDIERS GET JOBS QUICKLY

WASHINGTON, Aug. 19.—Since the amendment to the Vocational Rehabilitation Act was passed in July, compensability as a prerequisite to vocational retraining has been eliminated in the case of disabled men unable to follow their old trade, and the Federal Board for Vocational Education has the power and the responsibility to determine the discharged soldier's right to the benefits of this law. This relieves the delay which formerly was unavoidable, in placing disabled men in courses of training.

Under the law a second class of men, those whose disabilities are not such as to prevent their return to their former occupation, or to take up a new one, but who desire a course for improvement in the old trade or for some better trade, to such men the board is permitted by the law to give free instruction but no subsistence is allowed. In such cases the Bureau of War Risk must declare the men compensable before training is granted.

President Urges Senators to Rush Action on Treaty

Failure to Ratify Pact, Wilson Declares In Statement, Is Causing Chaos In Business and Giving Other Nations Lead Over America

(Continued from page one)

are face to face in the readjustment of our national life are of the most pressing and critical character, will require for their proper solution the most intimate and disinterested cooperation of all parties and all interests, and cannot be postponed without manifest peril to our people and to all the national advantages we hold most dear. May I mention a few of the matters which cannot be handled with intelligence until the country knows the character of the peace it is to have? I do so only by a very few examples.

"The copper mines of Arizona, Montana and Alaska, for example, are being kept open and in operation at a great cost and loss in part upon borrowed money; the zinc mines of Missouri, Tennessee and Wisconsin are being operated at about one half their capacity; the lead of Idaho, Illinois and Missouri reaches only a portion of its former market; there is an immediate need for cotton belting and also for lubricating oil which cannot be met—all because the channels of trade are barred by war, when there is no war.

Same True of Cotton.

"The same is true of raw cotton, of which the central empires alone formerly purchased nearly four million bales. And these are only examples. There is hardly a single raw material, a single important foodstuff or a single class of manufactured goods which is not in the same case. Our full, normal, profitable production waits on peace.

"Our military plans, of course, wait upon it. We cannot intelligently or wisely decide how large a naval or military force we shall maintain or what our policy with regard to military training is to be until we have peace, not only, but also until we know how peace is to be sustained, whether by the arms of single nations or by the concert of all the great peoples. And there is more than that of difficulty involved.

"The vast surplus properties of the armies include not food and clothing merely, whose sale will affect normal production, but great manufacturing establishments also, which should be restored to their former uses, great stores of machine tools and all sorts of merchandise which must be idle until peace and military policy are definitely determined. By the same token, there can be no properly studied national budget until then.

"The nations that ratify the treaty, such as Great Britain, Belgium and France, will be in a position to lay their plans for controlling the markets of central Europe without competition from us, if we do not presently act. We have no consular agents, no trade representatives there to look after our interests.

Must Know Settlement.

"There are large areas of Europe whose future will lie uncertain and questionable until their people know the final settlements of peace and the forces which are to administer and sustain it. Without determinate markets our production cannot proceed with intelligence and confidence. There can be no stabilization of wages because there can be no settled conditions of employment. There can be no easy or normal industrial credits because there can be no confident or permanent revival of business.

"But I will not weary you by obvious examples. I only will venture to repeat that every element of normal life amongst us depends upon and awaits the ratification of the treaty of peace; and also that we cannot afford to lose a single summer's day by not doing all that we can to mitigate the water's suffering, which, unless we find means to prevent it, may prove disastrous to a large portion of the world and may at its worst bring upon Europe conditions even more terrible than those wrought by the war itself.

"Nothing, I am led to believe, stands in the way of the ratification of the treaty except certain doubts with regard to the meaning and implication of certain articles of the covenant of the league of nations; and I must frankly say that I am unable to understand why such doubts should be entertained.

"You will recall that when I had the pleasure of a conference with your committee and with the committee of the house of representatives on foreign affairs at the White House in March last, the questions now most frequently asked about the league of nations were all canvassed, with a view to their immediate clarification. The covenant of the league was then in its first draft and subject to revision.

Every Suggestion Accepted

"It was pointed out that no express recognition was given to the Monroe doctrine, that it was not expressly provided that the league should have no authority to act or to express a judgment on matters of domestic policy, that the right to withdraw from the league was not expressly recognized, and that the constitutional right of congress to determine all questions of peace and war was not sufficiently safeguarded. On my return to Paris all these matters were taken up again by the commission on the league of nations and every suggestion of the United States was suggested.

"The view of the United States with regard to the questions I have mentioned had, in fact, already been accepted by the commission and there was supposed to be nothing inconsistent with them in the draft of the covenant first adopted—the draft which was the subject of our discussion in March—but no objection was made to saying explicitly in the text what all had supposed to be implicit in it.

"There was absolutely no doubt as to the meaning of any one of the resulting provisions of the covenant in the minds of those who participated in drafting them, and I respectfully submit that there is nothing vague or doubtful in their wording.

"The Monroe doctrine is expressly mentioned as an understanding which is in no way to be impaired or interfered with by anything contained in the covenant and the expression, 'regional understandings like the Monroe doctrine,' was used, not because any one of the conferees thought there was any comparable agreement anywhere else in existence or in contemplation, but only because it was thought best to avoid the appearance of dealing in such a document with the policy of a single nation. Absolutely nothing is concealed in the phrase.

Domestic Questions

"With regard to domestic questions, article XVI of the covenant expressly provides that, if in case of any dispute arising between members of the league, the matter involved is claimed by one of the parties and is found by the council to arise out of a matter which by international law is solely within the domestic jurisdiction of that party, the council shall so report and shall make no recommendation as to its settlement.

"The United States was by no means the only government interested in the explicit adoption of this provision and there is no doubt in the mind of any authoritative student of international law that such matters as immigration, tariffs and naturalization are incontestably domestic questions with which no international body would deal without expressed authority to do so. No enumeration of domestic questions was undertaken because to undertake it even by sample would have involved the danger of seeming to exclude those not mentioned.

"The right of any sovereign state to withdraw has been taken for granted, but no objection was made to making it explicit. Indeed, so soon as the views expressed at the White House were laid before the commission it was at once conceded that it was best not to leave the answer to such an important question to inference. No proposal was made to set up any tribunal to pass judgment upon such question whether a withdrawing nation had in fact fulfilled all its international obligations and all its obligations under the covenant. It was recognized that the question must be left to be resolved by the conscience of the nation proposing to withdraw, and I must say it did not seem to me worth while to propose that the article be made more explicit, because I knew that the United States would never itself propose to withdraw from the league.

"Its conscience is free to take its stand as to the fulfillment of all its international obligations. It has never failed to fulfill them and never will. Can Only 'Advise Upon'"

"Article X is in no respect of doubtful meaning when read in the light of the covenant as a whole. The council of the league can only 'advise upon' the means by which the obligation of that great article are to be given effect. Unless the United States is a party to the policy or action in question, her own affirmative vote in the council is necessary before any advice can be given for a unanimous vote of the council is required. If she is a party, the trouble is her's anyhow. And the unanimous vote of the council is only advice in any case. Each government is free to reject it if it pleases. Nothing could have been made more clear to the conference than the right of our congress under our constitution to exercise its independence in all matters of peace and war. No attempt was made to question or limit that right. The United States will, indeed, undertake under article X to respect and preserve as against external aggression the territorial integrity and existing political independence of the league and that engagement constitutes a very grave and solemn obligation. But it is a moral, not a legal obligation, and

ble for the attacks and robbery recently committed on four launches of prominent petroleum companies, and also suspected of being guilty of robbing the launch from the American cruiser Cheyenne, were captured near Tampico Sunday. One of them has confessed he had participated in both attacks.

One of the assailants of George McDonald also was captured. McDonald was reported killed, but has arrived at Tampico safely. The bandits have been promised a quick trial.

Lieut. Davis' Flight Into Mexico Halted By Rescue

BERKELEY, Cal., Aug. 19.—Lieut. Earl Davis' plan to fly into Mexico if necessary to find his brother, Lieut. Paul Davis, held for ransom by bandits, was halted by the rescue of his brother and Lieut. Peterson. Earl Davis left yesterday to prepare for the flight and reached the home of his parents, Dr. W. B. Davis and wife, at Strathmore, Cal., shortly before the news of the rescue.

Texas Speeds Recruiting Of National Guard Troops

AUSTIN, Tex., Aug. 19.—Anticipating early climax in the Mexican situation, Governor Hobby today ordered speeding up of recruiting of the Texas National Guard to full strength of 16,000 men. Adjutant General Harley was ordered to proceed to recruiting centers through the state to hurry recruiting.

The Texas guard consists of two brigades of cavalry and one brigade of infantry.

FOUND GUILTY IN AUTO CRASH CASE

Found guilty of failure to give the right of the highway to an overtaking vehicle, Abraham Taiffer, of Los Angeles, was fined \$10 in Justice Cox's court today.

The complaint in the case was sworn to by Oscar Rosenbaum of Capistrano, who charged Taiffer with failing to make way for an automobile driven by Hazel Rosenbaum on the state highway between Irvine and San Juan Capistrano. The violation of the traffic laws was alleged to have occurred on July 1.

Ditresses called by the prosecution were Rosenbaum and his wife and daughter, and George W. Simmons.

William Kerr of Los Angeles testified in behalf of Taiffer.

Mrs. Rosenbaum testified that her daughter drove behind Taiffer's truck and trailer for a distance of two and a half miles, and that her daughter repeatedly sounded her horn for him to make room, but that Taiffer failed to pull to the right of the road. A collision occurred at a bridge south of San Juan Capistrano, witnesses said, during a moment when those in the Rosenbaum automobile thought that there was room to drive by Taiffer's truck and trailer.

Somebody says that cotton may go up to \$1 a pound unless the government regulates the price. Remember when the cotton belt was pleading, 'Buy a bale at ten cents?'

leaves our congress absolutely free to put its own interpretation upon it in all cases that call for action. It is binding in conscience only, not in law. "Article X seems to me to constitute the very backbone of the whole covenant. Without it the league would hardly be more than an influential debating society.

"It has several times been suggested, in public debate, and in private conference, that interpretations of the sense in which the United States accept the engagements of the covenant should be embodied in the instrument of ratification. There can be no reasonable objection to such interpretations accompanying the act of ratification provided they do not form a part of the ratification itself."

HE STRUCK ME SAYS WIFE IN DIVORCE CASE

Matrimonial Difficulties of Placentia Couple Aired

Testimony that Victor Hugo, of Placentia, whom his wife is suing for divorce, slapped her and that once he struck her on the nose so violently as to necessitate the attendance of a physician, was given by Louise Hugo before Superior Judge Williams today in Department 1, during the divorce trial of the couple.

In addition to the testimony given by Mrs. Hugo that her husband had struck her and slapped her, she stated that he threw coffee on her.

Hugo, taking the stand, denied that he had struck his wife. He said that at the time of the coffee episode she was carrying a corset in her hand and that when she stumbled against the stove, the corset upset the coffee and she was drenched.

Mrs. Hugo is asking alimony and \$250 for certain personal property. In court today Hugo testified that he had not earned more than an average of \$20 per month since January 1 of this year.

The case will probably be completed late today.

RAIL SYSTEM OF BIG ARMY TO BE FRANCE NEARLY RESTORED

Only 200 Miles Now Remain
Unserviceable In the
Stricken Areas

PARIS, Aug. 19.—France has re-
stored over 1,250 miles of railroads in
the devastated districts since the sign-
ing of the armistice. This mileage is
in addition to the 1,000 miles which
had been provisionally repaired before
the actual end of the fighting. Less
than 200 miles of destroyed roadbed
remain unserviceable.

Of the destroyed railways between
Paris and Belgium on the Northern
Railway nearly 98 per cent of the por-
tions out of service last November
have been restored. On the Eastern
Railway the restoration has been less
complete, but even on this line which
suffered heavily on the Champagne
and Verdun fronts, over 80 per cent
of the lines are again being used.

Much of the restoration work has
had to be of a temporary nature be-
cause of the shortage of materials.
The hardest work was encountered in
the region about Verdun and along the
valley of the Meuse where numerous
tunnels and bridges were destroyed.
Nearly one-half of the restored mileage
has been on double track lines.

The rebuilding of the network of
canals is progressing almost as rapidly
as the railway work. The total de-
stroyed mileage of canals exceeded
700 miles, together with 450 bridges
and 115 locks. By October 1 the great-
er portion of these lines of cheap trans-
portation will have been rebuilt.

Simultaneously with the railroad re-
building, the factories in many of the
"martyred" cities are resuming pro-
duction on a small scale. Machinery,
stolen by the Germans, is being col-
lected in all parts of Germany and
shipped back to the almost empty fac-
tories in Lille, Laon and St. Quentin.
Already over 25,000 tons of stolen ma-
chinery and material have been gath-
ered and shipped while even a larger
quantity has accumulated in German
stations awaiting shipment. This ma-
chinery was identified by a French
commission.

Though making heroic efforts to re-
assert herself in the linen industry, the
city of Lille is making but little pro-
gress because of the absence of spinning
machines. Of over 500,000 spindles
which were operated in and about
Lille before the war, less than 12,000
are working now. The others were de-
stroyed or carried away by the Ger-
mans. In the meantime Lille believes
that the predominance of her linen in-
dustry has been lost for all time, as
other nations have made a quicker
start since the end of the war.

FOGH'S PEACE TREATY LEVER

French Force Will Outnum-
ber Teutons' By Three
to One

PARIS, Aug. 18.—Though engaged
in demobilizing her entire reserve
army, France will maintain a numeri-
cal supremacy of at least three to one
over Germany's military forces, thus
guaranteeing the out-carrying of the
treaty terms.

At the present time France has
nearly two million men under arms,
but the present demobilization plans
call for the discharge of all but 600,000
before November 1. Germany now has
about 400,000 men in her volunteer
armies. This number must be re-
duced to 200,000 during the next few
months. Hence, in November, with
France's demobilization completed and
Germany reduced to the army per-
mitted her by the treaty, France will still
have full control of the situation.

On March 31, 1920, Germany will
have to have demobilized all but a per-
manent standing force of 100,000 men.
France will on that date still have
600,000 men mobilized, or a superior-
ity of six to one. Not only will France
then be in a position to watch Ger-
many closely, but she will be aided al-
so by the occupation forces of the United
States, England and Belgium.

With Germany thus reduced in mili-
tary strength, France has hopes of al-
so lessening the term of service for
her troops. The French have in the
past been driven to long term obliga-
tory service by Germany. The future
promises to remove this cause perma-
nently. The 600,000 men France will
for the time being retain under arms
consist of two classes, those of 1918
and 1919 as well as the professional
and colonial troops.

Establishing a federal wage board
may not help matters any, but it will
give us somebody to blame for our
troubles.

SOUTHERN CALIFORNIA

SANTA MONICA, Aug. 19.—An-
nouncement was made here today that
Mr. and Mrs. Jack Shay, who were
married two months ago in Santa Ana,
and who figured in the divorce courts
of Los Angeles three weeks later, are
reunited and living in Ocean Park.

TULARE, Aug. 19.—Just when the
people of Tulare were congratulating
themselves that they had passed
through all the telephone agitation
without strike trouble or change in
their rates, the Tulare Telephone &
Telegraph Company announced it had
applied to the Railroad Commission
for authority to increase its monthly
bills 75 per cent.

LONG BEACH, Aug. 19.—While the
names of the sponsors of the move-
ment have not been revealed thus far,
it became known positively late yester-
day that a petition seeking the appoint-
ment of a city manager, to supplant the
present commission form of govern-
ment in Long Beach would be circu-
lated tomorrow.

LANCASTER, Aug. 19.—R. A. George
of Los Angeles shipped 2000 sacks of
barley to Europe this week. The grain
was raised in the dry farming belt of
Antelope Valley a few miles west of
here.

VENTURA, Aug. 19.—Glen Allen
Keiser of Fillmore has petitioned the
superior court to change his name to
that of Wilson, he giving his reason
that the name "Keiser" is pronounced
the same as that of the ex-ruhr of
Germany; that its use is distasteful
to him, which causes him much em-
barassment. Keiser is a native of
Coalgate, Okla., aged 22.

SAN DIEGO, Aug. 19.—Mrs. Robert
Green, 1316 Twenty-eighth street, re-
ported to the police that her residence
was robbed twice yesterday, once dur-
ing the afternoon and again at night.
The second burglary occurred after
Mrs. Green left home for the police
station to report the first. Jewelry val-
ued at \$250 was taken, she said.

SANTA MONICA, Aug. 19.—Physi-
cians at St. Catherine Hospital an-
nounced that Mrs. E. H. Greene, who
was badly burned while riding in an
airplane at the Ince aviation field Sat-
urday night, is in a critical condition.
Mrs. Leo J. Trost, who accompanied
Mrs. Green, was said to be resting
well.

TULARE, Aug. 19.—Egg production
fell off sharply in the Tulare district,
according to the reports of the Tulare
Co-Operative Poultry Association. Sudden
hot weather, which continued for
more than two weeks, is given as the
contributing cause for the loss.

The first typewriter was made 200
years ago. Many a weary stenog, as
she reads this will suspect that she
has inherited it.

FORM AMERICAN LEGION POSTS OVER STATE

Forty-Five Are Organized In
Sixty Days; Membership
Grows Weekly

SAN FRANCISCO, Aug. 19.—Sixty
days after organization of the Ameri-
can Legion was started in California,
there are 45 posts in different parts of
the state, and 35 additional posts in
process of organization. There are
more than 7800 members, and this
number is increasing weekly. The Le-
gion was formed in Paris by a dele-
gation representing every overseas di-
vision or unit, and later ratified by de-
legates representing the troops, sailors
and marines in American home service
when the armistice was signed.

Posts are now located in the follow-
ing California communities: Alameda,
Blythe, Bakersfield, Berkeley, Brawley,
Corning, Colusa, Coalinga, Chico,
Crockett, Dinuba, El Centro, El Segun-
do, Fresno, Hanford, Hollywood, Los
Angeles, Lodi, Long Beach, Livermore,
Madera, Monterey, Marysville, Mono-
via, Martinez, Oakland, Pasadena, Par-
lier, Porterville, Petaluma, Pomona,
Richmond, Reddy, San Francisco (two
posts), San Diego, Salina, San Bernar-
dine, Stockton, Santa Rosa, Sanger,
Salinas, Soledad, San Rafael, Sebasto-
pol, Tulare, Visalia and Willows.

Three thousand posts, with a mem-
bership of over 500,000 have been
formed within the last 60 days through-
out the nation.

Members of the army, navy and ma-
rine corps during the great war are
eligible to membership. The organi-
zation is non-political and organized to
care for the interests of ex-service men
and their families, and to carry on pa-
triotic work throughout the nation.
Annual dues vary from one to three
dollars, being assessed at just enough
to pay for the expenses of conducting
the posts.

EIGHTEEN KILLED IN TRINIDAD EXPLOSION

TRINIDAD, Colo., Aug. 19.—Eigh-
teen mine workers were killed by Monday's
explosion in the Oakview coal shaft
near La Veta, it was definitely estab-
lished today.

The bodies of twelve have been
taken out. The remaining six dead
have been located and are expected
to be brought out today.

DUBLIN.—Posted in London, May
28, 1914, a letter has just been deliv-
ered to the addressee here.

TESTS MADE TO SHOW IMPACT PRESSURE

Truck In Motion Shoves Down
Six Times As Much As
Truck at Rest

Preliminary road impact tests made
by the Bureau of Public Roads indi-
cate that the impact pressure ex-
erted by a motor truck in motion
is about six times that of a truck
at rest. The tests were conducted
with a Class B Government Truck
loaded up to five tons, running up
fifteen miles an hour and allowed to
fall from varying heights on the im-
pact-measuring apparatus. These tests
will be continued with trucks ranging
from the lightest weight to the heav-
iest until complete data is obtained.

The question of the relative im-
pact exerted by trucks with solid
versus giant pneumatic tires will also
be investigated. Definite arrange-
ments have been made to secure a
three-ton truck with requisite tire
equipment for these tests.

Tests to show the resistance of va-
rious types of road surface, such as
concrete, asphalt, etc., are soon to
be undertaken. About 50 road slabs
built of these materials will be
broken under the impact of a ma-
chine which approximates the impact
effect delivered by motor trucks.

By measuring the amount of im-
pact actually delivered by the motor
trucks to roads and by proceeding
further in testing the destruction of
actual road slabs subjected to impact,
government officials hope to obtain
very definite information which will
permit them to design a high type
pavement or high types that will re-
sist definite traffic conditions.

WAITS 32 YEARS FOR DECREE

EDINBURGH, Aug. 19.—How John
Wilson, soldier waited 32 years for a
divorce, was told here. On his wedding
day in 1882, his regiment was ordered
to Ceylon. In 1887 he learned that
his wife had had a child of which he
was not the father. At the time he
was unable to afford a divorce.
Granted.

Remember the lecture on Christian
Science tonight at Clune's Theater.

THE SOUL OF A BOY

Who can fathom the soul or measure the mental development of a boy between the ages of 10 and 15 years? Who knows him? Who can comprehend the depths and the shallows of him? He lives not in the actual world, but in a realm of dreams and imaginings of his own creation. His brain is on fire and his restless feet are eager for the paths of adventure. He has more plans for his future than he discloses. He climbs over the scantling of an unfinished building and thinks that he will be a carpenter and construct great houses. He watches the outgoing railroad train and is quite resolved to be a locomotive engineer. He views the antics of the acrobats in the circus and concludes to become a clown. He reads some blood-curdling narrative of the sea and resolves that when he grows up he will be a pirate. He gathers half a dozen other boys, and in the eucalyptus grove, or on a rainy day in the sacred seclusion of the woodshed, the henhouse, or the barn, with closed doors, he organizes a band of robbers with secret signs and grips, and with penalty of death for whoever shall betray the dread secrets of the band. And when the weather is fair the bandits sally forth with swords of lath and pistols of wood to devastate the land.

"Our captain was as brave a lad as e'er wore epaulet."
And we went to the mullen stalk that in his course he met."

Shall we take such a being as that, such a compound of dreams and dime novels, with conscience not yet seated upon her throne, with half-grown mentality as plastic to every passing impression as is the snow to the footfall of the quail, and hold him to the same measure of responsibility that we mete out to developed manhood?
* * *

With the contemplation of youth comes almost inevitably the yearning for youthfulness. But would we live over again if we could place our older heads upon our younger shoulders? Or would we serenely welcome our wrinkles and say:

"Hail tranquil tide of life, where no tumultuous billows roll;
How welcome to myself appears this halcyon calm of soul!
The wearied bird blown off the deep would sooner quit its shore
Than I would cross again the gulf that time has brought me o'er."

Even when one, of a right, possesses a good opinion of himself; when one's life has been, as nearly as may be, an unbroken success; when one can say, as few men can, with Pericles, "I never caused an Athenian to put on mourning"; when one has all those things "which should accompany old age, as honor, love, obedience, troops of friends"—still, even then, the best of us must entertain some modest misgivings as to whether, in going to our future place of residence, we shall climb the golden staircase or be compelled to descend the asbestos ladder.

And yet and after all, most of us would right readily respond to the song, "I would I were a boy again."

PROTECTION NEEDED

Less than one year ago a certain gentleman named Richard Hurd was rustling about the country securing signatures to a pledge never again to buy goods made in Germany. He got quite a number of them, too.

For a long time, now, Germany has been scratched from the entries of the race for the American market, as was also Austria. But figures for June show Germany and Austria once more entered in the lists, the former selling us nearly a million dollars' worth of goods, and the latter about \$309,000 worth, since the armistice was signed. This must make Mr. Hurd feel very miserable, and when this little rivulet expands into a great river it will make many besides Hurd feel the same way.

Fortunately, a Republican congress is now in control of national legislation, and the House Ways and Means Committee has reported a measure which will, if it becomes a law, effectively withstand the attempt of Germany to destroy dye and chemical industries built up here during the war; but no adequate protection of American industries in general, can be secured until the Democratic administration is retired from power in 1921.

WILLING TO TRY IT

Critics of the League of Nations may question the wisdom of statesmen favoring it, here and abroad. It is readily admitted, however, that their numbers are great. It seems quite likely, as one writer remarks, that never before in human history have so many public men been united in behalf of any undertaking as are now united, the world over, in favor of an international league.

Some of them are not over-enthusiastic about it. But they favor it because they see no alternative, no substitute that gives promise of accomplishing what they think it is just possible that the League itself may accomplish. And they are moved, more than by anything else perhaps, by the widespread popular sentiment for the League.

Of that sentiment there can hardly be much doubt any longer in the mind of a careful inquirer. The masses of people nearly everywhere seem to want a League of Nations because they believe there is some hope in this venture, and little hope in anything else.

They are not very critical about it. They do not split hairs and weigh words. They are willing, it seems, to take the present draft—with reservations or without them—almost in blind faith, with the idea of giving it a trial and seeing whether it will not work—knowing that if it will not work they can discard it, but believing that with the proper spirit of optimism and co-operation the governments of the nations can make it work.

The new military training plan would give three months' instruction to more than half a million boys every year, at a cost of \$95,000,000, or less than \$200 apiece. Thousands of parents would gladly pay more than that for the privilege of sending their sons to a military school for three months in the summer or winter, and hundreds of thousands of lads would jump at the chance.

The farmers are certainly justified in one complaint. It isn't right to fix the price of wheat without fixing the price of cotton.

The Roumanians are hungry for Hungary.

Census Important

Riverside Enterprise

Few communities appreciate the importance of the census period, which comes once every ten years. It is true that there has always been a certain amount of rivalry about the census and there have been census takers who were crooked and census returns had to be gone over and revised, but the community that desires to have its report accurate and complete and no more that that, has quite a job on its hands.

The census that is taken each ten years, stands for a decade as the basis for every city in the United States. If incompetent men handle the work, antagonize the people they meet and are careless of securing accurate and complete returns, the community suffers. We believe, therefore, that it would be to the interests of a community to carry on a census-taking campaign in co-operation with that of the government enumerators, check the work of the latter and furnish information where the official report is inadequate.

For the sake of the accuracy of the national census and all it represents, every community in the country will find it a good business proposition to be represented for exactly what it has, no more and no less.

New Mexico claims a half-mile strip along her northern boundary, and is suing Colorado for it. In Europe, they'd go to war over that.

Are On the Run

Huntington Beach News—For several months past there has been general propaganda disseminated throughout the country that shoes would sell for \$20 and \$30 per pair. There is little doubt but that the leather trust and the shoe manufacturers were the originators of this campaign of educating the public to accept the inevitable advance in the price of shoes, and had there been nothing said about arresting the profiteers, shoes would undoubtedly have advanced to the high prices predicted by the interests that control the leather supply and the factories.

One week ago today, President Wilson opened a campaign against the profiteering in the food supplies of the nation, and the officials of the leather combination have evidently been able to read some of the hand writing on the wall, as since that time the statement has been given out by the Armour Leather Company of Chicago that the peak of high shoe prices has been reached, and that no further advances need be anticipated.

Such combinations are controlled by wise men, and they have foreseen that when the searchlight of publicity was turned upon the profiteers in food supplies, those who were pursuing a like course in other lines would be unsafe, and have come down off the perch where they expected to hang the \$20 and \$30 shoes. This does not indicate, of course, that there will be an immediate slump in the price of shoes, but gradual decline may reasonably be expected within the next year.

The general agitation over the country is certain to bring about lower prices in nearly all lines, but in most instances the declines will probably be nominal, and there is no reason whatever for any one to imagine that there is the slightest chance of prevailing prices falling again for several years.

OUCH!

The Real Democracy

(Dr. David Starr Jordan in Sunset.)

Social disorganization is not a product of radical theory. In Europe at the present moment it is the outcome, inevitable in one form or another, of tyranny giving way to bankruptcy, hunger, idleness and distrust. No use of force can cure past distress, and only present justice and thrift can remove resentful wretchedness.

The real sources of trouble lie far deeper than any clash of theory. Social unrest, labor struggles and the various disturbances of the day do not originate in doctrines, fallacious or otherwise. The great war has stirred society to its depths, so that the best and the worst rise to the surface. But its most direct result has been to destroy the stability of money values; savings and earnings alike are submerged in uncertainty. The high cost of living produced by world necessity, world waste and currency inflation, all this aggravated by lavish expenditure and unexampled taxation, tends to drive the masses to the wall. The partial relief of a minority of workers through successful strikes only lays heavier burdens on the others. There are a few in every nation who enjoy what is called "war prosperity" but there is no real prosperity in war. War drains the heart's blood of all nations, financially as well as biologically. For this there is no remedy, only partial palliation, until thrift and co-operation can restore normal life. And no social theory, bad or good, can greatly change conditions. What the world has spent, it must somehow make good. Two things, moreover, must be remembered. No enterprise can persist if its outlay exceeds the value of its output, nor yet if it fails to pay the laborer an adequate living wage.

Worth While Verses

LULLABY

O sleep, lead thou this child of mine into thy garden closes,
And fill her lap with buds and flowers, with apples and with roses;
Sweet apples to her father give, to her mother roses red,
To her patron saint the roses white that dewy petals shed.

But lambs they feed in pastures green, sweet sleep all children blesses,
Thus, my child, is pastured with love and with caresses.
Oh, sleep be in thine eyes, my child, and health upon thy brow,
But may thy father wakeful be, to get thy dowry now.

Oh, sleep, for on thy wedding day and in thy bridal chamber
Red flowers and white shall wreath thee round, and through thy window chamber,
The fair white snow shall fall become, the mountain flocks shall be,
And for the palkears to drink sweet wine shall fill the sea.

—Translated from the Greek by Rose Kerr, in the Balkan Review.

CALIFORNIA COURIER

INTERESTING PAPER

One of the most interesting relics to be seen at the Riverside public library is a copy of the California Weekly Courier, published in San Francisco August 1, 1850. In passing it may be noted that those were the happy days for newspaper publishers; for the subscription prices of the Courier are given as follows: By mail, one year, \$25; six months, \$16; single copies, 12½ cents.

A prominent news story in the Courier relates to a meeting called by the mayor to provide ways and means of affording relief to suffering emigrants enroute across the great plains to California. The account tells of the lack of food along the way, of mules and other animals perishing, and even of the necessity of men and women being forced almost to cannibalism by the hardships and perils of the long journey. It is related that one man saw not fewer than 20 bodies of persons who had died from fatigue and starvation.

Items dealing with the market prices of living necessities are interesting in comparison with present prices: Bread sold in the Stockton market for 11 and 12 cents per pound; ground coffee, 70 to 75 cents; hams, \$30 to \$40; lard, 40 to 50 cents; prime pork, \$18 to \$20; sugar, 35 to 37 cents per pound; green tea, 70 cents to \$1.70.

Oregon City prices are given as follows: Dried apples, 75 cents per pound; wheat, \$2.50 per bushel; cook stoves, \$60 to \$160; lumber per M, \$50 to \$60; butter, 26½ to 75 cents; flour, \$3 per cwt.; tobacco, 37½ cents to \$1.25; eggs, 50 to 75 cents. Those were the days of '49; and various little news items in the columns of the Courier indicate the roughness of the life in San Francisco at that time. One such deals with the untimely death of a young matron who was left to die without medical attention in her tent, while neighbors listened unmoved to her cries for assistance.

An editorial deals with the burning question of slavery, and of the admission of California to the union as a state. All in all the Courier, while only a four-page journal, offers much to interest and inform the reader of today.

POLISH GIRLS WILL

TEACH OWN PEOPLE

NEW YORK, Aug. 19.—Twenty Polish girls, members of the Polish Grey Samaritan Unit which has been trained in this country by the Y. W. C. A. to fit girls of Polish birth or parentage to do reconstruction work in their own country, have sailed for Warsaw as the advance guard of a large group which will be sent if funds for transportation can be provided by the Polish Reconstruction committee.

The unit was made up of girls from St. Louis, Rochester, New York, Detroit, Pittsburgh, Milwaukee, Trenton, Cleveland and other of the larger cities where Polish Grey Samaritans have been trained at local Y. W. C. A.'s.

Four counselors, Martha Chickering, Los Angeles, Cal.; Emily Grace, Baltimore; Frances West, Chattanooga, Tenn.; and Stephanie Koslowska, New York City, accompanied the unit which will proceed from Le Havre, the landing port, to Paris and thence to Warsaw where they will be guests of Mme. Paderewski, wife of the famous pianist, Ignace Paderewski, who is now president of Poland. A hotel has been taken over as headquarters for the Polish Grey Samaritans, who have been trained in social work, first aid, home nursing and elementary dietetics.

SENATORS WILL URGE

MARSH LAND DRAINAGE

KLAMATH FALLS, Ore., Aug. 19.—Drainage of 50,000 acres of marsh land in Northern California and an equal area just over the Oregon line is to be taken up with the Interior Department by Oregon senators. The project contemplates drainage of marsh land surrounding Lower Klamath Lake through cutting off its water supply from Klamath Straits or dyking the marsh lands off from the lake's water.

It is estimated that the swamps can be turned into valuable farm land for not over \$30 per acre. If the Reclamation Service does this work, much of the land will be thrown open as homesteads. The cost of such projects is repaid to the government in twenty years.

SANTA ANAN IS K. OF C. GROWING

R. C. NURSE IN SIBERIA

RAPIDLY SAYS OFFICIAL

Miss Reba Dobson Early In July Went to Fighting Front Hospital

In a Red Cross hospital closest to the Siberian fighting front is a Santa Ana nurse, Miss Reba Dobson, daughter of Dr. G. H. Dobson of Santa Ana.

According to a letter just received from her by her father, written July 3, she was that night to leave Omsk, Siberia, for Chilibinsk, where she and another nurse were to take care of Dr. Jackson, an American doctor, who was seriously ill.

Arriving at Omsk, Miss Dobson wrote: "We arrived here yesterday. The place is very much like all Siberian towns, terribly dirty and lots of people with no homes. It was a town of 100,000 and in just a few months it has increased to 400,000. The A. R. C. has a hospital here of 1,000 beds and yesterday had 1,050 patients. All the hospitals are like that."

Another letter received from Miss Dobson, written on June 24, aboard train as she was on her way to Omsk, gives some deeply interesting pictures of conditions in Russia. In that letter Miss Dobson says:

We are already twelve days on the way and only at Irkutsk—that is about half way. This country is perfectly beautiful and wonderful. All kinds of beautiful wild flowers. The fields are ablaze with them and the soil so rich. It is such a crime not to be cultivated more. One day we ro through country that looks like the Middle West, next day like Colorado, and then we crossed a desert and saw caravans of camels, and were on the edge of a sand storm. Then we came to these wonderful mountains again rich with all kinds of minerals. Coal everywhere yesterday. They only go a foot or two under the surface and find rich coal. But they say they have to give 90 per cent to the government and cannot own the land, only lease, and that can be cancelled at any time by the government. So there is no incentive for them to improve the property.

In every town we see the results of fighting. Bridges are burned, houses gutted and full of bullet holes, etc. It makes one feel sad to see so much destruction of these wonderful buildings and then poverty everywhere.

At Vladivostok they have wonderful store buildings, etc., but the shelves are almost bare and they say at Omsk the stores are all closed—you cannot buy a thing. Money doesn't count, but if you have anything to trade, you might get something.

Irkutsk is near Lake Baikal and on the river that empties into the lake. The ice was not all gone from the lake. They say Irkutsk is the Paris and Paradise of Siberia and it surely is pretty. But the same story is everywhere. Still in their cafes they have entertainers. These people are splendid musicians. They always have an orchestra and two or more singers, etc. But the places are practically empty until about 12 o'clock; then they begin their dinner parties, etc. They have grand opera here and of course many nice open houses.

The other day we arrived at a town and saw "Seminoff's" armored train. It was very, very interesting. Then we saw these Czech soldiers all along the line. And we will certainly have to take our hats off to these people. When the history of this Russian revolution is written, it will be mighty interesting reading.

We stop at nearly every station. I have just been through a Russian armored train and it, too, is mighty interesting.

We are traveling with lights out. That sounds thrilling but we have had no trouble and do not anticipate having any. Last night I was reading a book at 10 o'clock. I went to bed at 11 and it was still light. We only have about two hours of real darkness. I could hardly believe my eyes when I saw the sun setting at 10:10 the other evening. So you see, traveling with lights out doesn't mean very much. But it sounds exciting.

We have two Czech doctors. One is a woman, and these Czech soldiers nearly go wild when she talks to them. She is the first Czech woman they have seen for four or five years, and she is very pretty and interesting. A great many of these fellows are from universities, etc., and sing—I wish you could hear them.

MUCH U. S. BOOZE IS

SHIPPED TO ORIENT

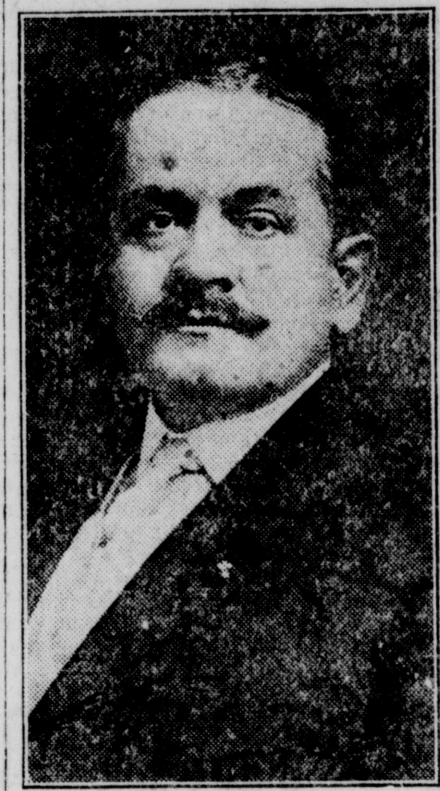

SAN FRANCISCO, Aug. 19.—John Barleycorn, exiled from the United States, is migrating to China in thousand-case lots. With the French champagne producing districts ravaged by war, there is such large demand throughout the Orient for French champagnes and other American liquors that the firms caught with tremendous supplies have a splendid chance to "get out from under" at a splendid profit before the Sheppard Act becomes effective in January.

Several steamers are leaving here every week with an indelibly large quantity of intoxicants stowed away in their "innards," but as January approaches, there will be still heavier cargoes of liquor, to avoid confiscation in America. Shanghai firms are the main buyers.

Had Bilious Attacks. "Some time ago I had indigestion and frequent bilious attacks. I procured a bottle of Chamberlain's Tablets and was greatly surprised by the quick benefit I received from a few doses of them. One bottle cured me as I have not had any return of them," writes Mrs. Ella Wright, Chillicothe, Mo. If you have any trouble with your digestion give these tablets a trial. They will do you good.—Adv.

Membership Will Help Fight Bolshevism or Other Radicalism

One of the reasons why the Knights of Columbus were able to render such valuable service to the men in the uniform of the United States army, navy and marines was that back of the K. of C. and the public support they received was a thriving fraternal organization, growing rapidly in all parts of the North American continent. William J. McGinley of New York, Supreme Secretary of the K. of C., in his annual report to the Supreme Convention of the K. of C., shows that the Knights have had a magnificent organization

WILLIAM J. MCGINLEY, K. of C. Secretary, Who Plays Leading Role in Great Peace Work.

with which to put into effect their various movements for the benefit of the nation's defenders.

The K. of C. membership is now well on the way to the 600,000 mark, and by the end of the year, at the present rate of growth, it is estimated the Knights will number approximately one million.

More than 120,000 new members were added to the K. of C. in the past twelve months. A feature of this wonderful growth of the organization has been the steady increase in membership from the ranks of the U. S. Army and Navy. The K. of C. made it a rigid rule that no attempt be made on the part of their war workers to in any way recruit members among the millions of army and navy men entertained and served by the Knights. But thousands of service men have sought to join the organization.

The finances of the Knights of Columbus, Secretary McGinley's report shows, are in an exceptionally flourishing condition. The present assets of the K. of C., exclusive, of course, of the special war funds, are over \$8,500,000. The influenza epidemic cost the Knights the past year in payments to beneficiaries of insurance members \$1,149,000. The total death benefits paid during the year amounted to \$2,175,394.98, making a total of \$13,123,646.76 since the beginning of the order. The total insurance in force this year in the K. of C. amounts to \$161,353,563.33.

There were 5,676 deaths in the organization during the year, of which 3,150 were members who had insurance in the order. Despite this, however, there was a gross increase in membership of 121,891. Over 81,000 associate members joined the Knights during the year. Every insurance commissioner has pronounced the K. of C. an exceptionally strong organization.

The Knights, with this vast increase in membership, are turning their entire energies toward solving the problems of peace after having met with conspicuous success in aiding the nation during the war. The full membership of the Knights is pledged to fight Bolshevism and all expressions of extreme radicalism. The Knights will also carry an offensive warfare against economic disorders by putting into effect a nation-wide educational program—an immense chain of free night schools. The 2,000 K-C councils that are serving as employment bureaus for returned fighting men will form the K-C supplementary school units.

NATIONAL EDUCATION

CAMPAIGN PLANNED.

Leading educators of the United States are conferring in New York this week upon the plan of the Knights of Columbus to inaugurate a nation-wide program of educational work which will be one of the chief features of the great peace task of the organization. The courses proposed are for the 600,000 members of the Knights of Columbus and others not members of the organization who wish to take advantage of the free instruction. A system of night schools will be devised that will extend from the Atlantic to the Pacific. The aim will be to teach practical citizenship and to give young men executive, technical or cultural training that will make their citizenship more effective.

The K. of C. committee in charge of the work includes Supreme Knight James A. Flaherty of Philadelphia, Supreme Secretary William J. McGinley of New York and Supreme Advocate Joseph C. Pelletier of Boston.

FRECKLES

This preparation for the removal of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee.

Social Events

Entertains Friends

Mrs. D. Miller of 710 West Sixth street, gave a dinner today for Mr. and Mrs. Lough and two sons, of Grand Junction, Colorado, who are visiting for the summer in California.

In the afternoon Mr. and Mrs. Miller, Ralph Miller and their friends motored down to Balboa for a swimming party.

Pleasant Week-End

Mrs. F. B. Browning and Dr. Mary E. Wright spent the week-end at Stratford Inn, Del Mar.

Mr. and Mrs. Frank E. Wright spent the week-end at San Diego and on their return, Sunday evening, brought Mrs. Browning and Dr. Wright home with them by auto.

House Party at Balboa

Miss Mildred Smith of 711 South Birch street, who entered the Good Samaritan hospital in Los Angeles upon graduating from the local high school last year, is at home for a vacation. She, with her friends, Miss Johnny Morrison, also in training at the hospital, and Miss Juanita Wright of Orange, with Mrs. Jennie Smith as chaperone, enjoyed a house party at Balboa over the week-end.

Celebrate Paper Wedding

The second and paper wedding anniversary of Mr. and Mrs. James F. B. Richards was fittingly celebrated recently, when they invited a number of friends and relatives to their home at 922 East Chestnut avenue to observe the day with them.

Mrs. Richards had appropriately decorated her home with wedding bells and flowers and in the dining room, where the light refreshments were served, a large wedding cake held the place of prominence as a center for the attractive table, where covers were laid for the guests, Messrs. and Mmes. D. H. Brown, Julius Brown, W. H. Lowe and children, James Richards; Mrs. Susy Coble, Misses Kathleen Owens and Anita, Helen and Emlene Richards, nieces of Mrs. Richards, who assisted in serving.

Games and contests made a lively evening and just before leaving they gathered around the piano to sing a number of old and ever-popular songs.

The memory of an exceptionally pleasant evening will linger long in the minds of the friends of Mr. and Mrs. Richards, who received many pretty remembrances from their guests.

Meeting Called

The Unitarian Women's Alliance will meet tomorrow afternoon at the home of Mrs. Dell Andre, 305 South Main street.

Family Dinner

Mr. and Mrs. Grant Lambert were hostesses at a family dinner Sunday. Mrs. Lambert is fortunate in having a number of relatives near by and quite often they all gather at her home.

Sunday's affair was a farewell dinner for Mrs. George Finley, who left Monday morning for a month's visit with her parents in Gettysburg, South Dakota. Music filled the greater part of the evening.

Present were Messrs. and Mmes. Wilbur Lambert, Grant Lambert, Cecil Lambert, George Finley and daughters of Westminster, Miss Blanche Lambert, Mike Carillo and Walter Lambert.

Complete Surprise

A surprise celebration of the birthday of Mrs. George Roseneyer of Fairview avenue was planned and successfully carried out last evening by a group of her neighbors.

Mr. Roseneyer was taken into the secret and upon his invitation his wife went for a ride with him to the beach, where a number of her friends had gathered and were awaiting her arrival before starting the wiener bake previously planned. The surprise was complete and genuine and while she was "catching her breath" they showered her with good wishes and congratulations—the best kind of a birthday gift.

At the beach were Messrs. and Mmes. George Roseneyer and daughter Hilda, Herbert Boyd, Charles Baldwin, Mrs. Condon and daughter Virginia, Mrs. D. E. Ford and children, LeRoy, Richard, Russell, Mary and Eleanor.

Cordial Invitation

Members of Hermosa Chapter and visiting members are cordially invited to attend the installation of officers of the order of the Amaranth in Anaheim Wednesday evening at 8:30 in the Masonic hall.

Good Program Planned

The Woman's Missionary Society of the First Baptist Church will hold an important meeting tomorrow afternoon at 2:30 at the home of Mrs. J. S. Runyan, 416 South Birch street. A large attendance is desired and expected.

Mrs. Earl Morris will act as key woman and has prepared an interesting program on Japan.

Successful Reception

The reception given by the Hermosa Chapter, No. 105, O. E. S., of the Eastern Star to the past matrons and patrons of 1919, was led to a triumphant close late last evening by the matron, Mrs. U. L. McCleery, ably assisted by her committees and Mr. and Mrs. P. L. Tople. It was a success from beginning to end.

An excellent concert program had been prepared for the entertainment. Earl Fraser made his first appearance in public since his return from France and was given a hearty and sincere welcome. It is difficult to remark upon the numbers given, as anyone who has ever heard these artists knows that every one was completely enjoyed. Mr. Fraser was accompanied for the following program:

Quartette—"I'm a longin' Dear, fo' You"..... Jane Hathaway

Mrs. Coleman, Mrs. Slabaugh, Mr. Garstang, Mr. Phillips.

Accompanied by Earl Fraser.

The Brigand..... Spence

Mr. Phillips..... Casteldano

Forbidden Music..... Mrs. Coleman.

Duet—"On to the Field of Glory"..... Donizeth

Mr. Garstang and Mr. Phillips.

Piano—"La Campanella"..... Liszt

Earl Fraser.

An Open Secret..... Woodman

Mrs. Slabaugh.

Where E'er You Walk..... Handel

Mr. Garstang.

Duet—"Every Flower".....

Mrs. Coleman, Madam Butterfly

Mrs. Slabaugh.

Quartette—"Good Night, Beloved".....

Pucini

Following the program the guests

were led in the grand march by six

girls with ukuleles into the banquet

room. Upon leaving the lodge room,

a quaint Hawaiian custom was fol-

lowed and the guests presented with

lovely, slightly preparing them for the

little corner of Hawaii awaiting in

the banquet room. Unique appoint-

ments and decorations carried out the

Hawaiian colors of pink and yellow

and fruits common to that country

were used in the light supper.

The six girls, Misses Eleanor Stur-

teon, Ramona Clevenger, Helen Phil-

lips, Waive Kingrey, Gladys Burns

and Lucille Brothers, were present

and gave several numbers during the

serving of the supper. C. D. Brown

made a clever toastmaster, and at the

conclusion of the toasts, the benedic-

tion was pronounced in Hawaiian by

Mrs. P. L. Tople.

Guests of honor were: Past Grand

Matron, Mrs. Stannard, of Los An-

geles; P. E. Eisenbach, Past Grand

Patron of the State of Washington;

Mrs. Eva Boyd, Past Grand Treasurer

of California; Mrs. Mary Sherwood,

Worthy Matron of Los Angeles and

President of the Matrons' Association

of Southern California; Mr. Goff,

representative patron from Azusa,

and Mrs. Archie Brown of Los An-

geles.

Charged with the theft of an auto truck, Francisco Patino of 1032 Lincoln street, is in the county jail today, having been arrested by City Officers Boynton, Heard and Stewart. The truck, it is charged, was stolen from Santa Paula. Patino claims he purchased the truck.

Miss Vivian Crowe Tells How Cuticura Healed Her Eczema

"I had eczema very badly on my chin and hands. A pimply rash broke out and it was terrible, especially at night. It would itch and I would scratch, making it worse, and it burned awfully. I could hardly stand it. It was very embarrassing as I could not go among young people."

"This kept on for about a month, when I saw an advertisement for Cuticura Soap and Ointment. I sent for a free sample and it helped right away. I bought more, and in three weeks I was healed." (Signed) Miss Vivian Crowe, 537 Seaside St., Terminal, Calif., March 3, 1919.

Cuticura Soap, Ointment and Talcum are all you need for all toilet uses. Bathe with Soap, soothe with Ointment, dust with Talcum. Soap 25c, Ointment 25c and 50c, Talcum 25c. Sold throughout the world. For sample each free address: "Cuticura Laboratories, Dept. H, Malden, Mass." Send Cuticura Soap shave without soap.

PERSONALS

Miss Esther Coffman was a visitor in Los Angeles today.

D. Applebaum made a trip to the Angel City today.

Mr. and Mrs. Leo Mottz and son arrived today from St. Louis. Mr. Mottz is a brother of Mrs. Ashley Turner. The family may locate in Southern California.

Miss Erlene Chapman of Pembroke, Ky., is a guest at the home of Mr. and Mrs. J. C. Kirby for two weeks. Mr. Kirby is Miss Chapman's uncle.

During the absence of her brother, Dr. A. T. Vance, while on his vacation, Dr. Mabel Vance Tremain will fill his engagements, taking charge of his office in the Story building, Los Angeles. She and her husband went to Los Angeles this morning and will occupy her brother's home. Dr. Tremain sold her practice to Dr. Hester Tripp Olewiler last month, after twelve years of successful practice here.

W. W. Hoy went to the south fork of the Santa Ana river yesterday and brought home his wife and children, who had been vacationing there the past two weeks.

Conway Griffith of Laguna Beach visited in Santa Ana today.

Corporal Wendell Travitt, native son of Santa Ana, has arrived with his discharge from the 44th Motor Transport Company, after seeing service overseas. He arrived at the home of his sister, Mrs. Maibell Perry, on Saturday and on Sunday, accompanied by Mrs. Sophia Shepard, they visited their cousin, Miss Minna McCarrroll, at Redondo Beach. Mr. Travitt will remain here a week before going to his ranch at Fresno.

DEATHS

ATGEN—In Santa Ana, Calif., Aug. 19, 1919, Mrs. Augusta Atgen, aged 68 years, at the home of her sister, Mrs. N. L. Galbraith. She had lived here twenty-five years.

Funeral services will be held on Thursday, Aug. 21, at 2 p. m., at Smith & Tuthill's chapel.

HAWKINS—In Santa Ana, Calif., Aug. 18, 1919, Mrs. Etta A. Hawkins, at her home, 107 Cypress Ave.

Funeral services will be held tomorrow at 10 a. m. from Smith & Tuthill's chapel.

Bela Kun wept when he resigned. Probably because he had failed to murder so many people while the murdering was good.

Now the Swiss are rioting about the cost of living. What peculiar warp of mind convinces men that raising grain will decrease the price of wheat?

Motors do their knocking going up hill. Men do theirs going down.

City and County Briefs

Santa Ana's order for a carload of government meat, telegraphed today, and signed by Mayor J. G. Mitchell and City Clerk E. L. Vegely, read as follows: "Secretary of War, Washington, D. C.: Ship to City of Santa Ana, California, forty thousand pound car one half ham one half bacon. If unable to furnish mixed order send car straight bacon."

The annual Old Folks' picnic, for men and women over 70 years of age, is to be held at Sycamore Grove, Los Angeles, all day Saturday, September 6.

"Uncle Jimmy" Shaw has just about cleaned out the band of coyotes that has been devastating his water-melon patch in Laguna canyon. He has killed seven coyotes, with strychnine spread on pieces of watermelon.

Citizens of Huntington Beach will vote Tuesday, September 16, upon the proposition of issuing \$40,000 in bonds for reconstructing the gas system of that city.

The Amaranth Court, high order of the Eastern Star Lodge, is to be instituted and given a charter at Anaheim tomorrow, Wednesday evening. A public initiation will be a new feature.

The new West Broadway paving at Anaheim, extending from the S. P. track to the Garden Grove road, has been opened to travel. That stretch of road used to be "fierce," really—and auto drivers appreciate the improvement.

Is the coming winter to be a wet one? Some of the old-timers are beginning to predict a good rainy season, basing their forecast upon the fact that there have been several foggy mornings in August.

The committee in charge has decided to charge admissions of 25 cents for adults and 10 cents for children from 6 to 15 years, at the fair to be held in Huntington Beach October 2-3-4.

City Trustees Dale and Chapman, recently appointed with power to act, have granted permission for the installation of an auto supply station at East First and Hickory streets. The petitioners are J. E. Hall and George Ward.

Sixty members of the Get Acquainted Society of Long Beach picnicked at the County Park Sunday. John Spencer is president of the society and W. C. Smith vice-president.

Mrs. Paul E. Wright received a letter yesterday from her husband, Rev. Paul E. Wright, stating that he was in New York city and expected to arrive here in a few days. Rev. Wright has been overseas eleven months. He does not expect to return to San Bernardino and has no definite plans for the future.

S. A. PATRIOTIC SOCIETIES GET NEW MEMBERS

Delegates to Grand Encampment, G. A. R. Must Buy Tickets By Sept. 8

Orange county will be well represented at the National G. A. R. Encampment at Columbus, Ohio, according to indications today. A one-cent-a-mile rate to the gathering has been granted the veterans and members of affiliated patriotic societies, and many local members are planning to take advantage of this low rate for a trip to the Columbus encampment, and undoubtedly some will take the opportunity to visit their old homes. The round-trip rate to Columbus, with stop-over privileges, is \$56.44 at this one-cent rate for members only. Tickets must be purchased before September 8, and are good for sixty days from date of purchase.

The patriotic organizations are building up as never before and people are waking up to the fact that they are eligible to the Daughters or Sons of Veterans, but the Woman's Relief Corps is receiving the most members, as one does not need to be related to a veteran of the Civil war to be able to join the W. R. C. It has the glorious distinction of taking in any loyal woman. It is reported that 300 to 500 have joined recently in Los Angeles. Stanton Corps, which is the largest corps in the world, took in 125 in one day, and the local corps, Sedgewick No. 17, is rapidly growing in membership. At the regular meeting of the corps next Thursday is the last day that applications for membership can be received in time for members to be installed on September 4th.

HOSIERY THAT GIVES SATISFACTION

TO OPEN HARBOR WORK BIDS ON SEPTEMBER 3

County Commission Advertises For Bids on Dredging, Jetties, River Diversion

The time is fast drawing near for the beginning of work on the improvement, development, and protection of Newport Harbor. This was shown when the Orange County Harbor Commission, anticipating the payment within the near future for the \$500,000 county harbor bonds, advertised for bids for the harbor improvement work, bids to be opened Wednesday, September 3, at 3 o'clock p. m.

The commission at first planned to call for bids now only on the river diversion, dam, and jetty, but other considerations caused it also to ask for immediate bids upon the dredging of channels, erection of docks and warehouses, and construction of a railroad spur track to the warehouse. The commission reserves the right to reject any or all bids and for any part of the work. Bids are to be filed with Lew H. Wallace, of Newport Beach, secretary of the Harbor Commission. Each bidder must show his good faith by enclosing with his bid a certified check for 5 per cent of his bid, and the successful bidder must fully protect the county through bonds and sureties for the faithful performance of the work contracted.

The improvement, development and protection of Newport Bay for which bids are invited is segregated into seven parts:

Part 1—The extension of the jetty and construction of jetties and revetments and other improvements at the proposed mouth of the Santa Ana river.

Part 2—The construction of the dam at Bitter Point.

Part 3—The excavation at the proposed mouth of the Santa Ana river.

Part 4—The dredging of channel in Newport Bay.

Part 5—The dredging of a channel over the bar.

Part 6—The building of the wharf and warehouse.

Part 7—The building of the spur track at the wharf.

In Praise of Chamberlain's Colic and Diarrhoea Remedy.

"I cannot speak too highly in praise of Chamberlain's Colic and Diarrhoea Remedy," writes Mrs. Carrie Fuser, Zanesville, Ohio. "It has been used by myself and husband for cholera morbus and other forms of bowel trouble for the past fifteen years. It never fails to give relief."

\$10 Per Seat Charged In East for Movie Due Here

In the slave market at Kep-Abhur Scene from "Auction of Souls"

The Auction of Souls Will Be Seen at Temple For Four Days

Recently at the Ritz-Carlton, New York, the Bellevue Statford, the Symphony Hall, Boston, and the Blackstone Hotel, Chicago, a motion picture called "The Auction of Souls" was shown and the admission price was \$10 per seat, according to L. A. Schlesinger, manager of the Temple Theater. One critic said that there never had been a picture like it, and there never would be again, Schlesinger states. The picture is a screen version of the book, "Ravished Armenia," Aurora Mardiganian, who escaped to America after two years in Turkish harems, appears in the stellar role. The story tells frankly the horrors Armenian women went through in Turkey.

The film shows the herding of women and girls in the streets and public squares, the ceremonies of apostasy, and a thousand and one other atrocities attributed to the Turks. By special arrangement, the picture is booked to show at the Temple Theater four days, commencing Thursday. The price in Santa Ana will be the regular feature production price charged by the Temple management.

The Rev. and Mrs. Haworth leave Wednesday for Cuba, where they will take up duties at the same mission where they have served, at different times, covering the last fourteen years. The first stop will be at Oklahoma, where they will visit the Rev. Haworth's father, Rev. Perry Haworth. From there the Misses Helen and Esther Haworth and two brothers, will accompany their parents, Helen as far as Philadelphia, where she will enter the Friends' college; Esther will take up a course of study in the Penn college in Iowa and the boys will complete the trip to Cuba with their parents, going first to New Orleans where they will take the boat for Havana. Upon arriving at Havana, the party will motor 700 miles inland to the mission. The whole trip will cover over 3000 miles and will be made by machine with the exception of the boat trip.

NIPPON READY FOR NEW IDEAS, CLAIM

TOKYO, Aug. 18.—Japan is all in readiness to welcome the new ideals of the world developed by the war. Japanese opposition to introduction of the ideas that changed world conditions have created would take the country back into feudal days, according to M. Nakabashi, minister of education. "The propagation of democratic ideals which the war has brought in its train has given an impetus to the rise of new ideas in Japan, where freedom of thought has long been subject to regulations. This is a satisfactory sign of the times."

"It must be remembered, however, that bad as well as good ideas are apt to find their way here. As the constitutional ideas of the people are still undeveloped, there is danger of their becoming contaminated with radical ideas."

In my opinion the so-called new ideas are prevalent only in a restricted section of society and are not so dangerous as some fear. If influx of all foreign ideas is to be prohibited, owing to their possible baneful nature, that will mean reversion to the feudal days when Japan was isolated from foreign intercourse and the import of all foreign ideas was zealously guarded."

DOCK SHEPHERD IS BUSY AT AGE OF 74

CLEVELAND, O., Aug. 19.—In the dusk of almost any evening, when the toll of the Cleveland docks is still, a chunky old man, former bartender and prize fighter, can be heard laying down the law of the Bible to the workers of the lake front.

The graying sky roofs his church, the open dock is his pulpit and auditorium and the soft swish of the gleaming waters against the spiles is his choir.

Chaplain J. D. Jones, for all of his 52 years as the shepherd of the docks, hasn't forgotten to apply to his religious teachings the lesson he learned in the prize ring—to put a high pressure wallop in every punch. He carries his 74 years lightly and defies weather, labor and illness in his ministrations to the water-front colony.

In his youth Jones was both bartender and prize fighter and good at both, old-timers of his flock aver. Jones started his career as a preacher across the street from the place where he tended bar. He has no vain illusions about his flock and doesn't seek to turn out a galaxy of saints.

Combining practical with moral suasion, Jones has collected and distributed more than \$100,000 among the needy and temporarily embarrassed. From the contributions of his congregation he has raised sufficient to build a mission and also founded the Jones Home for Children.

LONDON.—Among surplus War Office and Munitions Ministry stores offered for sale are several miles of tape, red and other colors. The government, however, is retaining sufficient stocks of the red variety.

Remember the lecture on Christian Science tonight at Clune's Theater.

FAREWELL RECEPTION GIVEN REV. HAWORTH

ORANGE, Aug. 19.—A reception honoring Rev. and Mrs. Charles C. Haworth, was given at the El Modena school Friday evening, with over 150 present. Mrs. R. W. Jones made a farewell speech and presented a substantial purse, in behalf of the members of the church, to which the Rev. Haworth responded gratefully. Later a delicious community supper was served.

The Rev. and Mrs. Haworth leave Wednesday for Cuba, where they will take up duties at the same mission where they have served, at different times, covering the last fourteen years. The first stop will be at Oklahoma, where they will visit the Rev. Haworth's father, Rev. Perry Haworth. From there the Misses Helen and Esther Haworth and two brothers, will accompany their parents, Helen as far as Philadelphia, where she will enter the Friends' college; Esther will take up a course of study in the Penn college in Iowa and the boys will complete the trip to Cuba with their parents, going first to New Orleans where they will take the boat for Havana. Upon arriving at Havana, the party will motor 700 miles inland to the mission. The whole trip will cover over 3000 miles and will be made by machine with the exception of the boat trip.

Newport-Balboa Popular A delightful house party was held at Newport Beach during the past week. Those enjoying the affair were Dwight and Margaret Farris of Orange, Peggy Saunders of Anaheim, Mrs. M. L. Sterrett and sons, Carl and Jack, and Ann Torrens of Santa Ana.

A jolly week-end house party was held at Balboa last week. Mrs. Harry Smith, formerly Miss Ruth Smith, was the guest of honor Saturday afternoon at a charming miscellaneous shower, after which delicious refreshments were served. Those included were the Misses Gertrude Cole, Alice Fuller, Gwenevere Danner, Cecil Coal-trane, and Kathryn Dyer.

Mrs. M. B. Thompson and daughter Myrtle left Saturday for Seattle, Wash., where they were called by the illness of Mrs. Thompson's brother, J. S. Thompson.

The Misses Flora and Grace Divilbiss, of Pueblo, Colo., are guests at the home of their uncle, I. J. Case, this week.

Claude Porter and family and Roy Porter and family of Los Angeles, who are spending the week at Newport Beach, entertained with a dinner party to about twenty guests. Orange people present were Mr. and Mrs. Theodore Starkey and son Floyd, and Mrs. Allison.

Word has been received from Miss Helen Miller, who is now visiting in Vancouver, B. C., that she expects to make a trip to Alaska before returning to Orange. She is making the trip with Mr. and Mrs. Otto Loeschner of this city.

Mr. and Mrs. I. L. Casey and son of Jefferson City, Mo., and Mr. and Mrs. Harry W. Lee and two daughters motored to Long Beach Sunday. Mr. and Mrs. Casey and son will leave for their home this week after a month's visit here.

CLAIM FOR LUSITANIA SINKING NOT WAIVED

WASHINGTON, Aug. 19.—President Wilson told the foreign relations committee the United States had not waived its claim to reparation for the sinking of the Lusitania, but that the amount of reparation to be awarded America will rest with the reparation commission.

The president said he claimed nothing under the general reparation clauses because he "coveted the moral advantage that that would give us in the councils of the world."

MEDALS WILL BE GIVEN FOR AID TO JEWS

Men and Women of Other Faiths Do Much to Help Sufferers

NEW YORK, Aug. 19.—In recognition of signal services on behalf of the Jewish people, the American Jewish Relief Committee for Sufferers from the War will award specially struck medals to prominent non-Jews in many states. The names of the recipients of this honor will be announced shortly. They will all be men and women who during the trying years of the war and in the present crisis of stricken Jewry have devoted time and energy above and beyond the line of duty to furthering efforts for the relief of the starving Jews abroad.

The American Jewish Relief Committee is the national organization which has raised over \$25,000,000 for Jewish war relief and its chairman is Louis Marshall. Other members of the committee are Jacob H. Schiff, Henry Morgenthau, Nathan Straus, Felix M. Warburg, Julius Rosenwald, Cyrus Adler and a long list of prominent Jews in every state in the Union.

In announcing the plans to award this medal, Henry H. Rosenfeld, director of the committee, said:

"The Jews of America cannot, and will not, forget the magnificent service rendered by men and women not of their faith, who at great personal sacrifice have responded to the call to service in aiding the millions of unhappy people in the war-devastated areas. As a symbol of Jewry's appreciation for this unstinted aid and assistance, a limited number of medals will be awarded to these men and women and will serve to preserve for posterity the high humanitarian efforts of these splendid Americans who are above racial discriminations while human suffering exists."

The medal is of bronze and was designed by J. Kilenyi, now of New York, a well known Argentinian sculptor. It is one of the finest modern examples of the medallurgist's art. The face of the medal shows a kneeling woman and two children grouped appealingly before a figure of Columbia. Behind the figures is an altar flanked on each side by a seven-branched candlestick and a six-pointed star of David, emblem of Jewry since time immemorial. In reverse the medal bears the inscription:

"Humanity Called and You Nobly Responded."

State chairman of the American Jewish Relief Committee will recommend to the national body at New York the names of those eligible for this award.

RUMANIA ASKS U. S. TO SEND TEACHERS

BUCHAREST, Aug. 19.—"To impart to the newly-awakened peoples of the old world the American capacity for organization is the greatest immediate duty of the American people," declared Dr. Dimitri Jonescu, of the University of Bucharest, in an address at a banquet given to the members of the American Red Cross mission.

"We hope that the work of the American people will not stop with the splendid achievements in Rumania of the Red Cross," said Dr. Jonescu. "Send us some of your masters to explain to us the results of your researches and your splendid methods of work—to accustom us to your discipline of the mind, to your spirit of organization which, during the war, was shown to be so far superior to the formerly so-much-praised German methods."

"Rumania wishes to thank the American people for what they have done for us—the Queen, the King and the royal family join with me in expressing our thanks."

"It is the duty of the French and Anglo-Saxon civilizations to spread today their beneficial light over the world, chiefly in the newly-created countries which have been called to a new national life."

"Rumania is a nation of 16,000,000 inhabitants which, by its music, its art and its poetry, has proved itself capable of assimilating your civilization and of becoming its champion. Help us to found here the hearth of culture for the Orient."

COFFEE AND TEA ALSO HIGH ABOUT 1864-1866

The year 1919 has no monopoly on high tea and coffee prices, according to P. S. Lucas, manager of the U. S. Coffee Store in Seidel's new market. As proof of his statement, he cites the following article in "The Tea and Coffee Trade Journal," as follows:

"Tea and coffee prices in the closing year of the Civil War period were far higher (in proportion to the money value of the time) than prevailed during the Great War, as is shown in two invoices recently brought to light by the S. Hamil Company, coffee roaster, of Keokuk, Iowa. These invoices were for groceries sold by the Hamil company to Messrs. Barnett and Phillips of Unionville, Iowa. One was dated December 27, showing one bag Choice Rio Coffee weighing 163 1/2 pounds, at 49 cents a pound, one box Slavonia Y. H. tea at \$2.10 a pound and three pounds of Best tea at \$1.85 each.

"Two years later, December 5, 1866, the same firm sold a bag of 'No. 1 coffee' at 28 1/2 cents and a pound of No. 12 Imperial tea at \$1.85. Cassia was billed at 87 cents a pound and '30c pepper' at 38 cents a pound."

Hair restored to its natural color by the latest process. Mrs. Cora B. Cavins, Frou Frou Shop, 116 E. Fourth St.

JAPS' HATE FOR U. S. MEN CAUSE OF TROUBLE

Seattle Officer Says Strife In Siberia Result of It! Feeling

SEATTLE, Aug. 19.—Bitter anti-Americanism of Japanese troops is responsible for many fights between American and Japanese soldiers in Siberia, according to Capt. Stephen Chadwick, Seattle lawyer, who has returned from duty with the American Expeditionary Forces in Siberia. He says the acrimonious attitude of the Japanese army is very marked in Siberia, and that every move and action plainly shows Japanese dislike for Americans.

"In one instance, at a small railroad station," said Chadwick, "an American soldier brushed by a Japanese soldier, who was occupying the biggest part of the passageway. The Japanese immediately called for help, asserting the American had assaulted him."

"A squad of Japanese soldiers then came out and bayoneted and butchered the American with their guns. The American was rescued by American comrades."

Capt. Chadwick, who was located in Khabarovsk, a city of 35,000, says that the English translation of Japanese editorials and news stories showed an avowed feeling against the United States.

"It is my opinion that the Japanese signed the peace treaty for diplomatic effect entirely," stated the captain.

STATE OFFERS JOBS BY CIVIL SERVICE

The California State Civil Service Commission announces the following examinations to be held in the near future. Requests for further information and for application blanks should be made at an early date.

Director, Bureau of Child Hygiene, State Board of Health, \$3,000-\$3,600 a year.

Deputy Purchasing Agent, State Purchasing Department, \$3,000 a year. Petroleum Engineer, Dept. Petroleum and Gas, State Mining Bureau, \$1,800-\$2,400 a year.

Auditor, \$1,200-\$2,400 a year; Bookkeeper (Senior and Junior), \$900-\$2,100 a year; Stenographer and Typist (men and women), \$600 and above; Messenger (boys and girls), \$300-\$720 a year.

Belt Railroad Positions—Locomotive Engineer (promotional), \$6.15 a day; Switchman, \$5.60 a day; Locomotive Fireman, \$4.75 a day; Section Hand, \$3.50 a day.

Carpenter (foreman, journeyman, helper), prevailing wage; Plumber and Plumber's Helper, prevailing wage; Janitor, \$30-\$100 a month; Janitress, \$30-\$60 a month; Boilermaker, prevailing wage.

Institutional Positions—(In addition to the amounts stated, maintenance is included in the following positions): Attendant—Agnews State Hospital, \$45-\$65 a month; Mendocino State Hospital, \$45-\$65; Napa State Hospital, \$45-\$65; Norwalk State Hospital, \$45-\$65; Sonoma State Home, \$45-\$65; So. Cal. State Hospital, \$45-\$65; Stockton State Hospital, \$45-\$65; Veterans' Home, \$34-\$49; Cook, \$55-\$100; Dairyman (head and asst.), \$65-\$125; Farm Hand, \$55; Landscape Gardener (head and asst.), \$70-\$90; Vegetable Gardener (head and asst.), \$60-\$75; Laundryman (head and asst.), \$45-\$50; Laundryman (head and asst.), \$55-\$90; Milker, \$35-\$60; Poultryman (head and asst.), \$30-\$75; Waiter, \$30-\$45; Waitress, \$25-\$45.

WEST LEADS NATION, AUTOS PER CAPITA

The West leads the nation in per capita auto ownership, according to figures compiled by the bureau of publicity of the Omaha Chamber of Commerce.

The first nine states are west of the Mississippi, namely, Nebraska, California, Iowa, South Dakota, Montana, Kansas, North Dakota, Arizona, and Minnesota.

Michigan, in tenth place, is the leading state east of the Mississippi. In Nebraska there is an auto to every seven and eight-tenths people. In other words, if it were necessary for the entire population to leave the state it could be done quickly without the assistance of railroads.

The state of Utah is in twenty-fourth place.

GIRLS! USE LEMONS

FOR SUNBURN, TAN

Try it! Make this lemon lotion to whiten your tanned or freckled skin.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion whittener, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands and see how quickly the freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

IN MOUNTAIN STREAMS WATER IS DECREASING

Mountain streams are dropping at an alarming rate, and mountaineers are predicting that a number of the smaller creeks will go completely dry within the next few weeks, reports the San Bernardino Sun. In other sections of the state many streams are already dry. Yesterday Waterman Canyon Creek was not running at the upper end, the water simply standing in pools, and in the lower end of the canyon there was only a dribble from one pool to another. The bigger creeks are low. The water in the up-

per Deep Creek has dropped so low that the raccoons are making a big haul on trout. Crabb Creek will be dry in a day or two. It is not expected Deep Creek will go dry, but it will be lower than in many years. In Big Bear valley there is a heavy draught on the water and the lake is falling rapidly. It will go lower than in a number of years past, probably lower than during any seasons since the lake was filled after the construction of the new dam. Stream fishing is poor, although the low water is revealing many trout. They are apparently fed up on natural feed and take little interest in bait.

JAPAN-AMERICAN OWNERS LIKE TO FEELING GOOD, SAYS ISHII
'SLICKED UP'

Former Ambassador Blames City Cuts the Weeds Cheaper Than They Can Do It, Declare Owners

TOKYO, Aug. 19.—An entirely optimistic view in regard to the future relations of Japan and the United States was expressed by Viscount Ishii, former Japanese ambassador to the United States, who has just returned to Japan, in an interview the other day. The Viscount said that there is no collision of vital interests between the two countries on any problems, although it is inevitable that now and then propagandists will talk about a Japan-American war, and some people will believe that relations between the two nations are badly strained.

He attributes all misunderstandings between the two powers to the intrigues of propagandists, some of whom are active in China, he said. America's vital interests are mainly in the European and Latin-American markets and not in the Orient market, the Viscount said. Therefore, America is contented with the strict observance by the powers of the open-door and equal opportunity principle in China, and has never dreamed of an economic monopolization of the Chinese market nor will she dream of such a thing.

America's safety in the extreme Orient, continued the Viscount, lies in her developing China industrially and commercially hand in hand with Japan as well as with other powers, but not in trying to monopolize Chinese national resources. Though the Oriental market, especially that in China, may be of vital interest to Japan, Ishii does not believe those interests are being endangered by the American participation in the industrial exploitation of China, because, however wealthy the American capitalists may be, they cannot be considered as aspiring to pour the greater part of their capital into enterprises in that country to such degree that no other country can compete with them.

Since the American government, as well as the American people in general, are confident that Japan will never destroy the principles of the open door and equal opportunity in China thinking people there feel quite safe and satisfied with the present situation. For the same reason, Ishii approves of the American proposition of the consortium for China. He says it will be very advantageous, not only to China herself but also to Japan and America, for two reasons: First, it will do away with useless economic competition among the powers interested in Chinese finances and economics, and, secondly, it will serve to put an end to the activities of propagandists.

Referring to the Chinese peace delegates' refusal to sign the peace treaty, he said this action was very disadvantageous and that would soon be brought home to China that it is advisable to sign.

There are many and various ways to dodge the income tax, but no one has yet invented a way to dodge the outgo tax.

FEAR OF ARSON PROMPTS PLEA FOR OFFICER

San Juan Ranchers Request Supervisors to Hire Constable

Desire of being fore-handed in the matter of police protection in the San Juan Capistrano district has prompted ranchers of that section to petition the board of supervisors to employ a constable at the expense of the county.

In a petition before the supervisors today is set forth that the signers, Richard Egan, H. A. Stewart, C. Echenique, J. H. McCarty, Henry Henry Vander Leek, E. Oyharzabal, Jerome O'Neill and John Laneri, desire to call attention to the fact that "owing to prevailing conditions, the need for better protection of property has become imperative, in proof of which the press dispatches bring daily reports of loss and damage caused by irresponsible law-breakers all over the country, specific instances being the burning of barns and warehouses with their contents."

The petitioners ask the supervisors to "employ at the expense of the county a competent man, properly qualified to enforce the law, to serve as constable for San Juan township at a salary sufficient to compensate him for his full time."

The employment of John T. Combs as constable is recommended in the petition in the event that the request of the San Juan property owners meets with the desired action on the part of the supervisors. Combs, the petition states, has a thorough acquaintance with the neighborhood, besides being a very competent officer and absolutely fearless in the discharge of his duty. He is at present a member of the Santa Ana police force.

PLEADS GUILTY IN EMBEZZLEMENT CASE

Time for pronouncing judgment in the case of Irwin H. Weaver, who, in a complaint sworn to by Charles L. Davis, local automobile dealer, is charged with embezzlement, was set in Department 1 of the Superior court today for Tuesday, at 9 a. m.

Weaver appeared before Superior Judge Williams without an attorney, and entered a plea of guilty. The complaint, which was issued in 1916, charged Weaver, who was acting as salesman for Davis, with the sale of a used car which was given by Attorney E. J. Marks of Fullerton as part payment on a new automobile. The money Weaver obtained from the sale of the used car was alleged to have been appropriated by him to his own use.

After the complaint against Weaver was filed here he served terms in state penitentiaries in Ohio and in California. After his release from San Quentin he was brought to Santa Ana to face the charge brought by Davis.

A Traveling Man's Experience.
You may learn something from the following by W. H. Ireland, a traveling salesman of Louisville, Ky.: "In the summer of 1888 I had a severe attack of cholera morbus. I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic and Diarrhoea Remedy and to take no substitute. I took a double dose of it according to the directions and went to sleep. At five o'clock the next morning I was called by my order and took a train for my next stopping place, a well man."—Adv.

First 'Gob' to Wed in Pacific Fleet Elopes to Santa Ana

Cupid's dart Has pierced the heart Of a "gob" in Rodman's fleet.

But it is useless to try and tell the whole story in rhyme—a metrical setting forth of the elopement of William Robert Berry and his sweetheart from Los Angeles to Santa Ana's Greina Green would be something like gliding the lily, as 'twere.

Berry flitted to Santa Ana with Myrtle Louise Chesworth and today they are on their honeymoon. Berry is 22 and his bride is 19.

They secured a license at the court house of Joe (Cupid) Backs and then wended their way down to the basement, where the knot was quickly tied by the obliging Justice Cox.

Berry is said to be the first sailor of the Pacific fleet to be married during the ships' visit in Southern California.

Berry is aboard the U. S. S. Birmingham, and he will be discharged in September. He is a native of Georgia.

COURTHOUSE NOTES

Atorneys Marks and Launer of Fullerton have filed suit for divorce on behalf of Josephine Montgomery against George W. Montgomery.

District Attorney L. A. West today began a vacation at Bear Valley.

C. E. Walker, proprietor of the Princess (theater), today swore to a complaint charging Jose Limas with the theft of a bicycle. The bicycle was stolen three weeks ago. Victor M. Walker, son of C. E. Walker, saw Limas riding a bicycle which the boy says he is able to identify as his. Limas was arrested and arraigned before Justice Cox.

Roscoe Conkle, charged with non-support, was held to answer to the Superior court. At the hearing before Justice Cox, the complainant, Velda Brendle, Ernest Fulsom and Mrs. C. G. Fulsom testified. Deputy District Attorney Menton handled the case for the state and Attorney Clyde Bishop appeared for the defense.

According to an inventory and appraisal on file today the estate of Edgar A. Vial, consisting of Los Angeles property, is valued at \$1250. The appraisers are John N. Anderson, state tax appraiser; William L. McKenney and William A. Double.

In a petition on file at the office of the county clerk today W. C. Ruddock of Santa Ana asks for letters of administration in the estate of C. S. Ruddock, who died at Fullerton in 1907.

The second amendment to the articles of incorporation of the Anaheim Products Company, formerly the Union Brewing Company of Anaheim, is on file today. The original articles were filed in March of this year and a first amendment was filed on June 25. According to the present amendment the concern proposes to own and operate an industrial distillery and to engage in the business of manufacturing denatured alcohol, barley sugar, non-alcoholic beverages and other soft drinks. The directors and trustees are Anton Hessel of Los Angeles, John Bauer, William Fluhrer and Tony Hessel of Anaheim and Eva Hessel of Los Angeles.

The Franciscan Fathers of California, a corporation, in a petition on file today, ask leave to sell a house and lot at Anaheim. The petition, which was prepared by Attorney Clyde Bishop, sets forth that the Fathers own the property, subject to a life estate of Lena Kraemer, who is housekeeper for Father Sands, a Roman Catholic priest. Father Sands has moved to Santa Barbara, the petition states, and it is desired to sell the property to Albert and Frieda Vail in order that other property may be bought at Santa Barbara.

Following his arraignment before Justice Cox on a charge of embezzlement, J. J. Stein is in the county jail today in default of \$1000 bail. The preliminary hearing has been set for August 26 at 2 p. m. Witnesses who will be subpoenaed by the prosecution are G. A. Waterman of Hollywood, William Brant of Richfield and N. M. Durkee of Anaheim. Stein, who was arrested at Seattle, is charged with embezzling \$200 which he is alleged to have given as part payment on an automobile. Attorney Clyde Bishop has been retained by the defense.

Robert Silk, who in a complaint sworn to by T. J. Neal, is charged with the theft of a motorcycle, will answer to his arraignment tomorrow morning at 9 o'clock before Superior Judge Williams in Department 1. Today Attorney Leonard Evans of Anaheim was appointed to defend Silk, who had entered a plea of not guilty.

Thomas Silverthorn has been appointed a deputy sheriff. An interlocutory decree of divorce has been granted to Helen Pico from Ernest J. Pico. R. W. Clapp was attorney for the plaintiff.

Plans and specifications for a garage building to be built at the county farm are before the supervisors today. The plans were drawn up by Frank K. Benchley, architect, of Fullerton. The garage, which will be 25 by 48 feet in size, will cost approximately \$1500.

Stomach Trouble.
There are many who should be greatly encouraged to know that stomach troubles can be cured. Mrs. T. E. Hullinger, Mansfield, Ohio, was sick for three months with stomach trouble and constipation. She saw Chamberlain's Tablets advertised and decided to try them. Let her tell it. "The first dose did me more good than all of the medicine I had previously taken and by taking two bottles of the tablets I was positively cured."—Adv.

THESE HELPING TO PURCHASE WAR MEDALS

Committee Issues Names of Recent Buyers of War Recognition Ass'n Buttons

The executive committee of the Orange County War Recognition Association this afternoon issued the following list of recent purchasers of membership buttons, thereby helping to purchase the war medals to be given to Orange county service men at the big celebration on September 9:

Mrs. Helen A. Ash, J. M. Aikens, Mrs. Allen, Mrs. L. Arce, Mrs. J. S. Anderson, Finis N. Anderson, Mr. and Mrs. G. H. Andrew, Charles Adams, Charles Anderson, Prescott Allen, Margaret Allen, Robert Atkinson, Dan Allerman, John Avis, J. L. Arnold, Nelson L. Arnold, John Ayas, Dan Allerman.

Mrs. C. O. Bruce, Mrs. N. A. Beals, Mrs. E. J. Bull, Mrs. F. B. Browning, Mrs. C. D. Ball, Mrs. Elmer Burns, W. C. Budrow, W. L. Bullard, Mrs. John Beatty, Mrs. J. H. Bray, J. H. Bray, Mrs. J. W. Broomell, Leona Benson, Mrs. J. R. Benson, George J. Beckman, Carrie Benson, P. L. Briney, Mrs. H. Buckley, Mrs. Jack Boe, Fay L. Barnett, A. J. Buss, L. Brown, D. C. Baddley, Mrs. Mary E. Beard, J. H. Blanken, Mrs. J. P. Browne, F. W. Bows, Mrs. Anna Boyd, Louisa A. Buck, W. A. Pest, W. E. Bressler, S. Buck, O. B. Bridgford, Mrs. O. B. Bridgford, Freeman H. Bloodgood, Mrs. Freeman Bloodgood, Mrs. M. Burlew, O. V. Barton, Ramon Burrall, I. L. Brisendine, Mrs. Biggs, Miss M. E. Bradley, Mrs. R. O. Barrios, M. H. Beard, A. Biner, E. J. Barger, Fred Burlew, Alex Brownridge, R. C. Boyd, L. E. Baker.

N. I. Cartwright, Mrs. F. O. Calkins, Sedalia Cobbison, Ruth A. Crosby, L. J. Carden, Minnie A. Carden, Helen Carden, Miss Lida Crookshank, Lillian Confer, Mrs. Ida Confer, Lena Confer, C. C. Collins, Miss Helen Crawford, Addie M. Collins, S. J. Chapman, C. H. Chapman, Anne Cochems, Willard Coleman, Mrs. N. E. Collins, Mrs. Gladys Corson, Mrs. M. L. Corson, A. E. Chapman, Mrs. F. N. SANTA ANA, CALIFORNIA, TUESDAY, AUGUST 19, 1919.

SANTA ANA CITY COUNCIL ORDERS CAR U. S. HAM AND BACON

NEW LIQUID GAS IS DANGEROUS SAYS COUNTY CITRUS MAN

Warnings Have Been Given Repeatedly by Commissioner Morris

That the new liquid gas used by fumigators is "like a piece of lightning," and must be treated with due respect to its dangerous qualities, is a warning that Earl L. Morris, county horticultural commissioner, has given fumigators all over the county.

The death of Floyd Hatfield at Fullerton Sunday night from the effect of breathing the gas used in fumigation of citrus trees emphasizes the need of great care in the use of gas.

"I have observed so much carelessness among fumigators," said Morris, "that I have been fearful that deaths would occur. A good many men are employed in fumigation who seem not to realize the deadly risks they run. That gas is all right if it is operated in a proper manner. The trouble is that the men take chances."

"The gas is concentrated to such an extent that it takes but a small leakage to give gas enough to kill a man. They must be careful about their pumps. A leaky pump may cause a death. The other day I was in an orchard testing some of the liquid gas. It was in daylight and there was a breeze blowing. I told the men to stay on the windward side, so that they would be safe. As I was testing the gas and it was flowing out into the air, one of those men walked on the other side of the apparatus, and got a jolt of gas. It is a wonder it didn't kill him. Occasionally a man may get into a suspicious place, a place where he thinks there might be gas. All he has to do is to hold his breath until he passes out. A man can walk a long way while holding his breath, especially so if he realizes that getting away from that gas is a case of life or death. Care is all that is needed. It cannot be treated as carelessly as fumigators treated the old gas. They occa-

Hatfield Is Killed Opening Drum, Companion not Hurt

FLOYD Hatfield, 32, of Anaheim, was killed by the deadly liquid gas used for fumigating while opening a drum containing the liquid for the purpose of inserting a faucet, through which it was to be drained off and taken to the generator, according to testimony at the inquest held in Fullerton yesterday afternoon. He was on the windward side and got a whiff of the gas, while his companion, on the opposite side of the drum, was unhurt.

The verdict of the jury summoned by Coroner C. D. Brown was that Hatfield came to his death from cyanide gas poisoning. No blame was fixed by the jury.

Hatfield had served two years overseas with the American army, and had arrived home a month ago yesterday.

BATTLE SCARRED WAR VETERAN BACK IN S. A.

Scarred with wounds received in the thick of the fighting on the Vesle river in the summer of 1918, and wearing gold stripes indicating service of more than a year overseas, Alvin Teel, son of Mr. and Mrs. Frank Teel, 1023 West Bishop, is back home today, modestly disclaiming credit for his share in his country's struggle.

It was about a month after the Germans had met their first tangible setback at Chateau-Thierry that Teel was wounded. On August 7, 1918, the Americans were hotly in pursuit of the retreating forces of Von Hindenburg. One of the many shells hurled by the enemy's artillery to hamper the oncoming Americans burst near Teel and as a result of wounds re-

NO TUITION OR FEES IN JUNIOR COLLEGE, HIGH SCHOOL

T. B. Kelly Coming Back to Teach Chemistry, Says Official Announcement

There never have been any tuition charges at the Santa Ana high school or Junior college. And this year there will be no fees for any of the courses of either of the schools, according to announcement of Principal D. K. Hammond. Heretofore it has been the practice to collect fees from students taking the domestic science, chemistry and other courses where considerable materials were used. School officials feel, however, that even the small fees charged might be burdensome to some students, and inasmuch as the total fees did not nearly cover the large amount of supplies needed they decided to discontinue the collection of all fees from students.

A deposit will as usual be collected from students for locker keys, to be returned at the end of the year when the keys are surrendered.

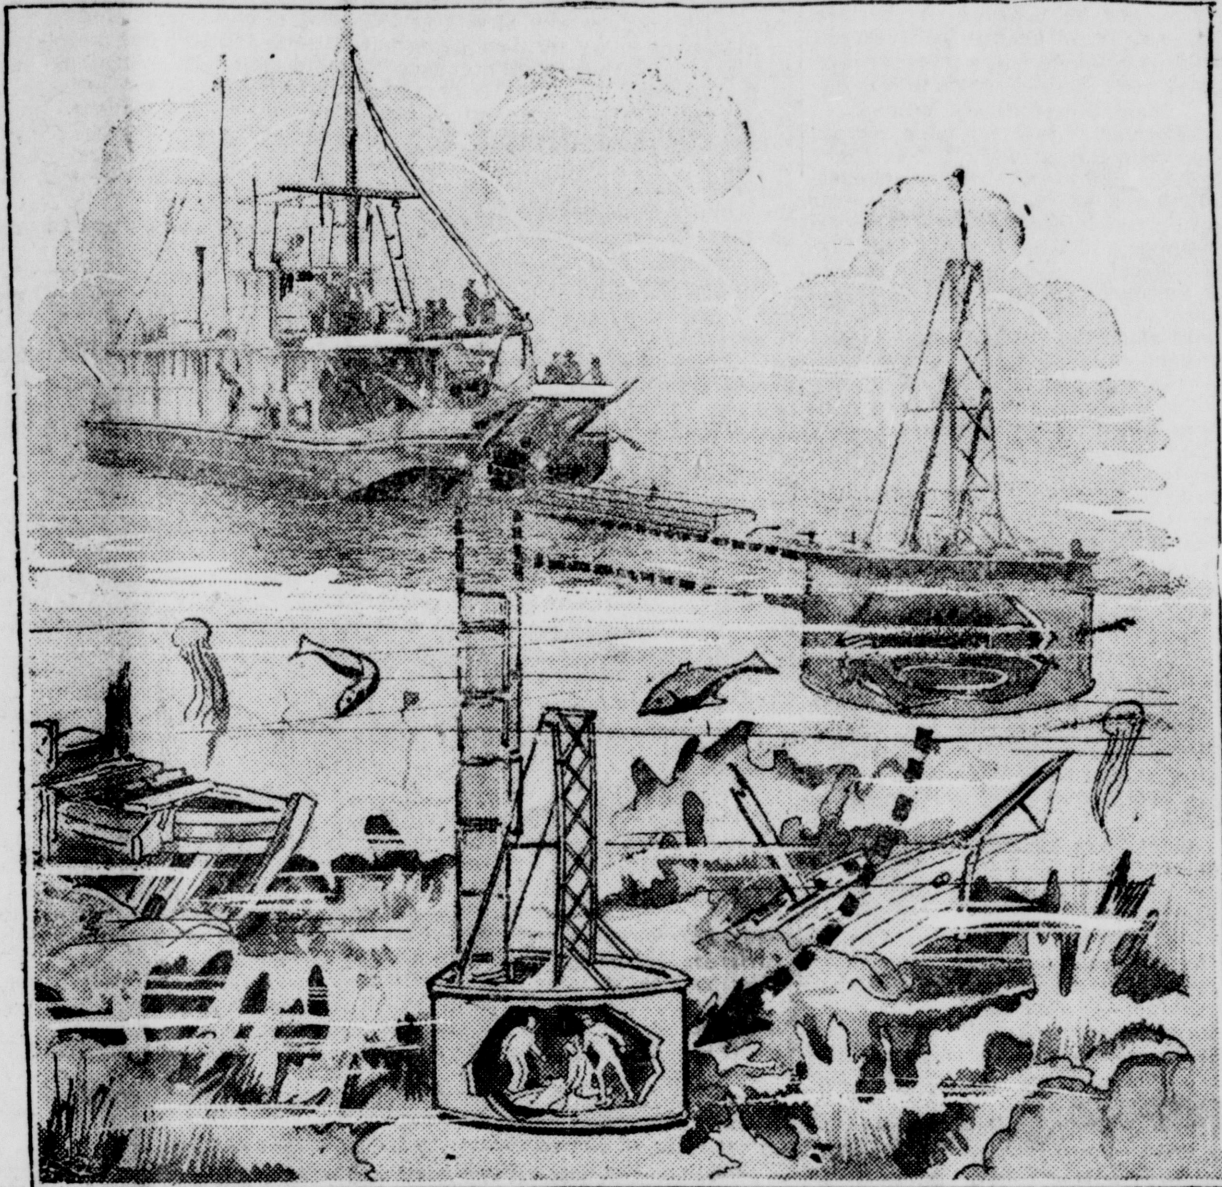

Some information of value to prospective students of the Junior college, their relatives, and friends, is contained in the following announcement of Principal Hammond:

To the Graduates of Nineteen Nineteen:

If you have not fully made up your mind to go to college, or have not yet decided upon any particular college, I believe it will be to your advantage to consider Junior college work for a part of your college course.

Now that it has been decided to continue the Junior college indefinitely, a policy of general improvement and enlargement will be followed. New courses will be added according to demands, more equipment installed and special lecture courses (including musical and dramatic numbers) will be arranged for. Every endeavor will be made to offer students opportunity for social improvement. Student activities along both athletic and intellectual

Fifty Walk Dry Clad on Floor of Ocean Test New Device for Reclaiming Treasure

Lake submarine salvage machine. Dotted line outlines tube to diving chamber and arrow shows its course in lowering it to the ocean bed.

PROGRAM TO BE SELECTED BY PATRONS

Tomorrow evening's band concert will be next to the last of the Wednesday evening concerts for the summer.

For the last of the concerts, Wednesday evening of next week, W. Frank Harris, conductor of the Santa Ana Elks' Band, will give a program of numbers that have been played during the season.

"If anyone has any special selection that he or she would like to have us play over again at the last of the concerts, I should be glad to know of it," said Harris today.

Tomorrow evening's program, starting at 8:15 o'clock, follows:

- 1—March, Regimental.....Althouse
- 2—Novellette, In Poppyland.....Zamecnix
- 3—Selection, From Luder's Musical, Fantasia Woodland.....Anderson
- 4—Descriptive, Evening Idyls (Barnhouse); Sunset, Evening Festivities; Dreamland; Serenade; Awakening; Finale.
- 5—Fantasia, "Gems of Stephen Foster".....Tobani
- 6—Overture, Bohemian Girl.....Baile
- 7—Star Spangled Banner.

GLIDDEN ANNOUNCES PRIZE AERIAL DERBY

NEW YORK, Aug. 19.—Plans for a transcontinental aerial derby from New York to San Francisco, with more than \$100,000 in prizes, including a first prize of \$20,000, were announced by Captain Chas. J. Glidden, chairman of the aerial touring league committee of the Aero Club of America. No date has been set for the contest which will be international in character and sanctioned by the Aero Club of America, under the rules of the International Aeronautical Federation, governing all aerial sporting events.

3 KILLED, MUCH LOSS BY ELECTRICAL STORM

FORT WAYNE, Ind., Aug. 19.—Three persons were killed and property damage amounting to thousands of dollars resulted from a rain and electrical storm which swept over Northern Indiana and Western Ohio recently. The three dead were struck by lightning.

Several buildings here and Van Wert, Ohio, were reported destroyed by fire and lightning. The greatest damage, however, will be that to crops.

Billions Sunk By German U-Boats, May Be Taken From the Sea

BRIDGEPORT, Conn., Aug. 19.—Walking dry-clad in six fathoms of water on the floor of Long Island Sound, 50 men and women guests of Simon Lake, inventor of the submarine, tried out his new device that is intended to salvage from the floor of the ocean billions of dollars in gold and treasure sunk by submarine and wreck during the war. From the operating vessel a steel tube four and a quarter feet in diameter is connected to a fairiron-shaped compartment. The observers crawl through the tube to this compartment and the tube is forced downward until the compartment rests on the floor of the ocean, or over a vessel to be salvaged and a metallic hatch is opened. Compressed air pumped in keeps seawater out. A suction equipment will lift 300 tons of coal an hour.

BOOZELESS FRONTIER DAY BIG SUCCESS

CHEYENNE, Wyo., Aug. 19.—There was an eastern school teacher at the Cheyenne Frontier Days Celebration who thought a bulldog figured in the steer bulldogging event.

But she was not so far from the truth, as were old timers who predicted that "Chian" couldn't stage the great annual show without "booze." The celebration just held was the first under prohibition. And it was the most successful of the frontier days. Crowds ranging up to 20,000 daily assured that next year and for many years—without liquor—the cowboys will hold forth in their annual festival.

Tent colonies of auto tourists, spread out on the plains near Cheyenne, attested to the widespread popularity of broncho busting, roping, steer bulldogging and horse racing. Cowboys from Chicago to Walla Walla and Cody to North Worth were entered in the contests.

NEW LIBERTY MOTOR OF 738 HORSEPOWER

WASHINGTON, Aug. 19.—The War Department has announced the development and successful test of a twenty-four cylinder Liberty motor of the X type producing a horsepower rating of 673, and which it was estimated, could be developed to 738.

The test was made at McCook Field. It was built of standard Liberty motor parts, the changes consisting in the main of two regular crank case upper halves, one of which was somewhat altered, and specially designed connecting rods.

THIS TIME IT'S A NAIL THAT GETS HIM

H. E. Smith of 919 East Washington has had another periodical accident. This time a nail got into his foot.

Some eleven or twelve years ago, Smith, then county supervisor, was in a runaway in which he was badly hurt. Since then he has had some kind of an accident every year or two. Once he fell out of a tree in which he had been picking fruit. Another time he skidded off of his bicycle. In these and other accidents none of his injuries were as serious as those received in the runaway.

Last Friday Smith was bossing a crew of concrete workers, and in hastening from one point to another he stepped upon a board with a long nail in it. The nail went through the shoe and nearly through the forward part of his foot.

The injury has proven to be very painful, and it is likely that Smith will be on crutches for at least another week. He is under a physician's care.

LOS ANGELES SOLDIER BRINGS RICH BRIDE

NEW YORK, Aug. 19.—The first troops of the Third Division arrived home today on the transport Agamemnon, which docked in Hoboken. They include thirty-two officers and 954 men of the Eighteenth Field Artillery; nineteen officers, 652 men of the Ninth Machine Gun Battalion; five officers and 332 men of the supply and machine gun companies of the Thirty-eighth Infantry.

Capt. H. G. Halverson of Los Angeles, assistant superintendent of the Los Angeles Railway Company, was one of those who brought home a bride. He was for two years with the Quartermaster Corps, and married Germaine Heldens, a Belgian heiress, at Antwerp.

FRENCH RADIO WILL SEND 12,500 MILES

PARIS, Aug. 19.—The new wireless station to be erected at Croix d'Hins, near Bordeaux, will have a sending radius of 12,500 miles, according to the Excelsior. It will be one of the most powerful wireless stations in the world, the paper adds, and will have a capacity of 72,000 words daily.

WEST SECOND ST. ROSS TO BAKER TO BE PAVED VERY SOON

North Main Property Owners Protest Against Widening Plan, Removal of Trees

DOINGS OF CITY DADS CHRONICLED IN BRIEF

At its meeting last night, the Santa Ana city council—

Authorized the purchase of a carload of government hams and bacon.

Heard emphatic protests from North Main residents against widening plan for elimination of parking and removal of trees.

Granted petition for paving of West Second street, from Ross to Baker.

Passed tax ordinance for first reading, fixing rate at \$1.45.

Approved the plans for Grand and Santa Clara avenue paving.

Granted petition of Boulevard Express Company for franchise and continued Highway Transportation Company's petition.

Authorized the police department to secure a dog-catcher and proceed at once to eliminate stray dogs or collect license tax upon them.

Ordered weeds cleaned off parking on West Fourth and West Fifth, and authorized street superintendent to clean weeds from property on Main, Sycamore, Broadway, Twentieth, Myrtle streets.

Santa Ana folks are going to have an opportunity to "load up" on government hams and bacon, if an order telegraphed to Washington today should result in a shipment of meat to this city. Mayor Mitchell sent the order today for a carload of government meat, consisting probably of about 40,000 pounds, upon authorization of the city council given at its meeting last night.

Mitchell reported on a visit to Fullerton, when he learned that city had ordered a car of meat direct from Secretary of War Baker at Washington, but had not yet received an acknowledgment of the order. The order could not be filled at San Francisco, the Fullerton officials found, so they ordered direct, and the Santa Ana trustees decided to do likewise.

The carload of meat, it is estimated, will have a value of \$13,000 to \$15,000, and Mayor Mitchell and others of the council were in favor of the city itself attending to the selling of the shipment when it comes, although some local marketmen had offered to co-operate in its distribution.

To Pave West Second Street

A petition signed by property owners representing 78 per cent of the frontage was presented, asking that West Second street from Ross to Baker be paved with crushed rock and oil under specifications No. 82, the work to be done by Wells & Bressler, who circulated the petitions. This petition was granted, the paving to be done after curbs have been installed where not already in, and after all lots have been connected with sewer, gas and water pipes. All utility companies were notified to lay all necessary pipes in readiness for paving, and Wells & Bressler were authorized to enter upon the street for laying curbs, sewers and gutters.

Property owners signing the paving petition, together with the frontage owned by each, are as follows:

Mari Mocho, 147; Ag. Michel, 50; S. A. Winkleplick, 40; C. I. Talbot, 50; Jennie L. Hantsberger, 50; L. A. Walkinshaw, 40; J. F. Franke, 50; E. Plummer, 50; C. G. Illingworth, 50; W. I. Newman, 50; Benj. Walker, 50; Mrs. Annie E. Frazier, 50; Mrs. Agnes Cielum, 50; W. West, 68; Henry Stiert, 50; Mrs. Julia H. Deakin, 100; M. A. Moosser, 50; Adam Lepage, 50; Jas. N. Singletary, 50; Mrs. Lena Lacy, 50; Mrs. Julia P. Arviza, 50; Frank Fowler, 50; W. A. Oharr, 68; A. Williams, 50; Laurence Fuentes, 50; Arch Hayes, 125; Amelia Lynch, 110; Mrs. H. Lehr Brauns, Harry Braun, 975; A. B. Holm, 50; W. A. Wilcox, 50; Mrs. Mary McAllister, 50; W. L. Wilhite, 50; E. J. Bows, 50; Mrs. Alice W. Overshiner, 50; R. B. Barnes, 125; Wayne Goble, 50; D. W. Hicks, 125; Floyd H. Turner, 25; Mrs. L. B. Elliott, 50; Mrs. Mary A. Brockett, 50; Robert Reed Conner, by Ella Conner, 53 1/2; R. H. Engelmsh, 50; Mrs. John Morris, 50; Mrs. Sarah E. Littrell, —; Edward Stark, 100; L. O. Vaughn, 125; Mrs. H. S. Elgin, 50; Gladys M. Cook, 50; M. M. Burns, 50; C. E. Dessey, 50; D. Baker, 125; L. L. Alderman, 50.

North Main Plans Discussed

The report by Dr. C. D. Ball of the proceedings of recent meetings of North Main street property owners

(Continued on Page Ten)

Simply Strike a Match and the Cooking Is On

DETROIT VAPOR STOVES

A Detroit Vapor Oil Stove in your household, makes possible the cooking and baking of any and all dishes; delicious roasted meats, light biscuits.

You can have a hot fire—almost as fast as gas—when you must prepare a meal in a hurry, and a quick oven when required for the most delicate of pastries.

One of the reasons so many people buy Detroit Vapor Oil Stoves is that they are really wickless. The word "wickless" is a much abused word, but when describing a Detroit Vapor Oil Stove, it is used correctly, as a "Detroit Vapor" stove has no wick of any kind. The burners light on a scientific principle—instantly—like gas. This principle makes wicks unnecessary. There is nothing to learn—simply strike a match, light the burners and put the kettle on at once and the cooking is on—that is all there is to it.

The burners save one-quarter of the fuel. One burner will burn at full capacity from 18 to 20 hours on one gallon of fuel. The success of "Detroit Vapor Oil Stoves" can be attributed to the service and durability of our giant burner, the heat condenser and the efficient valve and tank arrangement.

Dangler Oil Stoves

When it is a question of buying a regular oil stove we recommend the Dangler. It is a stove that we can guarantee to give contentment, a stove with many good features.

Other Oil Stoves

Puritan and Perfection Oil Stoves have a national reputation that needs no added endorsement from us. They are a standard product, fraught by years of patient effort.

The New Way To Put Up Things Is In a Preserving Tin.

BUSY NIGHT FOR CITY COUNCIL AT MEETING

Tax Levy Ordinance Passes First Reading, Rate \$1.45; Approve Grand Paving

and by W. J. Wells and his committee on the results of their canvass of sentiment on the plan to widen the street by eliminating parkings, precipitated a storm of protests from other owners against the widening plan, against the removal of trees, and against the P. E. tracks. The following ratio of sentiment above 16th street for or against widening on the basis of frontage, was ascertained by the committee as follows: Lamont M. Fadden, for widening 540 feet, against, none; Mac O. Robbins, for, 525; against, 56; W. J. Wells, for 875 feet, against, 50. Wells explained that many people had been away so their feelings could not be ascertained, and that no representations had been made to owners as to who would pay the cost of widening. Dr. Ball pointed out that some of the North Main paving is better than on other parts and urged that the entire strip be not condemned until after a thorough investigation.

Emphatic protests against widening were made by Judge R. Y. Williams, Walter Eden, H. Clay Kellogg and J. W. McCormac.

Williams Against Widening
"Practically all of us want new paving on Main street and no doubt many are favorable to a lighting plan, but I believe the majority do not want the trees to go, and they don't want the street widened," said Williams. "Main is already as wide as Seventh or Spring streets in Los Angeles, which bear many times the traffic we have here. What the street needs is to have the paving put in shape so the entire width can be used, then it wouldn't need to be widened. We don't care much whether the P. E. tracks remain on the street or not, for with the growth of auto transportation I believe the tracks will go off of themselves within two years."

"I paid \$500 more for my place on account of the fine trees there and feel it would depreciate in value if the trees should be removed. Why, Main street would look like a sinched cat with the trees all gone. Man may make pavement but God alone can make the trees, and I had rather have the trees than a bare stretch of good road."

Williams said he believed heavier pavement would be necessary on Main street, than anybody dreams of, and said he was afraid the present paved highways would go to pieces under the heavier loads before they were half paid for. He called attention to the extra expense of \$75,000 or more

which would be entailed by the widening plan, including removal of trees, new curbing, new sidewalks, and new pavement. He said he thought the trees would interfere very little with the proposed lighting system.

Eden Favors Nice Parkings
Eden spoke against the widening scheme, declaring there is nothing prettier than a nice parking in front of a home. Main street is wide enough, he said. What is needed, he declared, is to get rid of the P. E. tracks and these bumps, so that the entire street could be used rather than the two narrow driveways on each side of the tracks as at present.

"We'll never get a smooth street as long as the car tracks are there," said Eden. "Within a short time I expect auto buses to take the place of electric cars for carrying passengers—they are better to ride in anyway—and it will be better for all. I feel that it would add \$1000 value to each piece of property on North Main to have the car tracks removed and a smooth, durable pavement put in as far north as the bridge."

Kellogg also spoke against widening, declaring what the street needs is to make the 20 or 24 feet now occupied by car tracks fit for automobiles to use. It is only a question of time, anyway, he said, until there will be no electric cars and he favors the removal of the tracks. Kellogg was in favor of street trees, but said they should be uniform in size, and he believed the best results, as far as beauty is concerned, would be obtained if the trees were replaced every sixteen years or so.

Main Street Plenty Wide
McCormac spoke as one owning property south of Seventh, saying a widening plan to the north would eventually force widening in the business district, which would cause a large expenditure. It was his opinion that Main street is wide enough and that the pavement as far north as Seventeenth is in good shape. It is the bumps along the tracks, bumps caused by digging up pavement in the past, and the oiling (not paving) of the stretch between the S. P. and the bridge which makes Main street seem so bad, several of the protestants declared.

Robbins said North Main street had been largely built up by the P. E. transportation, and he would like to see the cars remain there, as they were a great convenience and the past few days has shown what a good thing they really are. Also, he said other nearby property owners beside those on Main street were interested in whether the cars were to be retained or not. He said there was undoubtedly SOME sentiment for widening and the matter should be held up until a complete canvass of sentiment could be made.

Can't Have Lights, Trees, Too
D. G. Cole said if the P. E. tracks were removed many would not be in favor of widening the thoroughfare who want it widened if the tracks remain. It would be ridiculous, he declared, to try to put ornamental lights at the side of the street if the parking trees remain. Dr. Ball spoke as an "old residenter," saying he liked the right kind of trees, but declared the street would be better off without such trees as are now on it, scattering and irregular except in two blocks, and

with many of them dead. South of Washington, he said, two-thirds of the trees are dead or dying. It would be better in five years, he said, if all the trees were taken out and new ones planted.

Mayor Mitchell thanked the property owners for their opinions, and assured them that everyone will be given a chance to be heard before any action is taken. All were agreed, he said, that SOMETHING ought to be done but the exact course of action has not yet been decided upon.

Proposed Tax Rate, \$1.45
The new tax ordinance, fixing the rate at \$1.45 on the \$100 valuation, was given first reading last night and will be finally passed at a succeeding meeting. The rate is divided among the various funds as follows: General, 55; street, 30; sewer, 05; fire, 10; advertising, 01; park, 01; band, 01; water bonds No. 2, 7 1/2; water bonds No. 3, 07; water bonds No. 4, 07; fire bonds, \$1 1/2; sewer bonds, 04 1/2; city hall bonds, 1 1/2; library, 15 (increase of 05 over last year); Main street bridge bonds, 04; Flower street bridge bonds, 01. Total, \$1.45.

The assessed valuation of the city is \$7,474,545, and the tax money which a rate of \$1.45 will raise is \$74,745 for the coming year. This amount, city officials are convinced, will not be sufficient to maintain a high standard of city efficiency, leaving little to go on outside of fixed charges, and many of them feel that the city should return to a plan of doing its own assessing and tax collecting. The tax rate is limited by law and the only relief in sight is to raise the valuations from the present one-third fixed by the county assessor high enough so that the legal tax rate is sufficient to raise the amount of money needed to carry on the city government.

Propose New License Law
The city license ordinance, fixing license fees for local business houses, is out of date, in the opinion of Trustee Tubbs. He declared the fees should return a revenue to the city and the committee looking up a proposed new business license schedule was told to "get busy." Attorney Scott said a graduated license system, basing the amount of the fee upon the business done during the year, might work out successfully.

Authorize Dog Catcher
At Mitchell's suggestion, a motion was passed authorizing the police department to appoint a dog catcher and to proceed to collect a license tax on all dogs in the city. It is not fair, Mitchell said, to collect a tax on some dogs and allow others to roam about unlied.

City Council Briefs
Tubbs of the auto parking committee reported on the experimental marking of "stalls" along the streets for auto parking, and asked for more time. He favored an eight-foot "stall" to allow plenty of room, and said the angle of parking would have to be different on different streets, according to their width. A 45-degree angle is all right on Fourth, he said, but on narrower streets a 30 to 35-degree angle may be necessary.

Trustees Dale and Greenleaf were appointed a committee to investigate the condition of city records as to protection from fires.

The council accepted and approved the plans for Grand and Santa Clara avenue paving, which will connect with the county pavement past the cemeteries.

Trustee Greenleaf, Deputy Health Officer Chandler, and Street Superintendent Hoy were appointed a committee to investigate and report as to the best method of handling the street sweepings.

Upon the invitation of G. I. Bauer, the council decided to visit the North Flower street bridge this morning to look over Bauer's plan for a retaining wall, to be paid for by the city on street property and property owners along their holdings.

The \$500 bonds of O. V. Dart as a house mover with J. A. Holland and D. P. McBurney was referred to the chairman for approval.

A letter from the Pacific Electric as to the recent change in its curved track on Maple street was referred to the city attorney.

The Boulevard Express Company was granted a franchise to operate its Los Angeles-San Diego cars over Santa Ana streets. The petition of the Highway Transportation Company for a similar franchise was continued to the council's meeting next Monday night.

A petition for a sewer on Grand avenue from Washington to the T. R. Overton place was read and referred back to the signers, for complete signatures and with the understanding, if the petition is presented again, that the property owners are to pay for the installation. The signers, and their frontage, are: Esther Clark, 170; Louie Stevens, 66; Mrs. Edna Dean, 139; Mrs. Jessie M. Overton, Mrs. Minnie Dietrich, 249.

The council adjourned to next Monday night at 7:30.

NEW LIQUID GAS IS DANGEROUS TO USE

(Continued from Page Nine)

sionally got strong whiffs of the old gas, but that gas came to them very much rarified, and this is more than likely to reach them concentrated and more likely to do damage.

"Orchard owners who are frequently around fumigators working on their places should take due notice of this and themselves use proper care. No one should touch the containers unless they know what they are doing."

Chamberlain's Colic and Diarrhoea Remedy in Michigan.

Mrs. A. H. Hall, Caseville, Mich., says, "I wish to thank you for your grand, good medicine, Chamberlain's Colic and Diarrhoea Remedy. We are never without it in the house, and I am sure it saved our baby's life this summer."

Mrs. Mary Carrington, Caseville, Mich., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for years and it has always given prompt relief."—Adv.

VETERAN, BEARING WAR SCARS, HOME

(Continued from Page Nine)

ceived from pieces of flying shrapnel he was in the hospital for seven weeks.

At the time Teel was wounded he was with Company M of the 59th Regiment, 4th Division. This was the same company in which were Carl Burns, who has also just returned to Santa Ana, Claude Hartman, E. B. Blackmore, Dick Hawkins, Harry Adams, Charles Nelson, all of Santa Ana, and Lee Kenyon of Tustin.

These men were all members of Company L, 7th Regiment, California National Guard, and at Camp Kearny had been assigned to a replacement contingent which went across seas early in June, 1918.

Asked to relate a few of the circumstances of the battle during which he was wounded, Teel said:

"There was nothing to it. It was all in the day's work. There wasn't anything remarkable about my share in the fighting."

After being evacuated from the hospital Teel was assigned to Company H of the 59th Regiment. By one day he missed out being in the front lines during the Argonne offensive. He was attached to a supply train, on which he served until the signing of the armistice.

Teel, still with the 59th Regiment, was in the Army of Occupation from December 12, 1918, to the middle of April of this year. His company was stationed at Senhals, Germany.

Teel left France with Carl Burns and the two men were together all the time until they arrived in Santa Ana. They left Brest on July 24, and have only now reached Santa Ana. They were mustered out of the service at the Presidio, San Francisco.

NO JUNIOR COLLEGE, HIGH SCHOOL FEES

(Continued from Page Nine)

lines will be increased with the return of the normal number of boys.

As to instructors, the usual high standard will be maintained. No college in the country can boast of a more scholarly instructor in the social sciences or philosophy than Mr. Nealey. Mr. Kelly will return from the army to continue his work in chemistry, and Mr. Bruff of the University of California has been secured for zoology. Every member of the faculty not only has the required academic qualifications, but is a skilled instructor as well.

If you plan to teach it will take five years of college work to obtain your teacher's certificate. If you are preparing for a professional course in law, medicine, engineering, etc., from five

to eight years will be necessary. Every one of these years spent at college away from home will cost you probably \$700 at least. If you spend two years in Junior college you will be better prepared financially as well as academically to undertake university work, and to derive the benefits of the social and other advantages there offered.

Courses offered this fall include: English composition, literature, Shakespeare by Mrs. Northcross; history by Miss Stewart; mathematics by Miss Whiting; economics, sociology, psychology and logic by Mr. Nealey; advanced chemistry by Mr. Kelly; zoology by Mr. Bruff; astronomy by Miss Lasby; French by Miss Watson; Spanish by Miss Swass; library science by Miss Greenfield.

College work will begin September 11, with registration coming September 8. If you wish further information

write for catalogue, which will be issued about August 20.

JAPANESE IN CHILE ARE BUYING MINES

SANTIAGO, Chile, Aug. 19.—News-papers call attention to the extensive purchases of mining properties by Japanese in Chile. It is said that more than \$5,000,000 is invested in copper and iron properties along the Northern railway. Recently Japanese have taken options on coal acreage surrounding the naval port of Talcahuano, just north of Concepcion. The newspapers add the number of Japanese coming here is growing steadily, although Japanese trade interests are inconsiderable.

Remember the lecture on Christian Science tonight at Clune's Theater.

GOOD PERMANENT JOBS

ELECTRIC RAILWAY SERVICE

STRIKE CONDITIONS

MOTORMEN AND CONDUCTORS — street car, interurban passenger and interurban freight service.

Wages, 40c to 52c per hour, dependent on class and form of service. \$100.00 earnings per month guaranteed. All new employees now given two years' seniority, which makes minimum wage 44c.

During strike trouble 20 per cent additional bonus paid and \$5.00 per day guaranteed, with board and lodging.

Men with experience 45 years of age or under, and without experience 35 years of age or under, accepted. Students paid during training course. Training promptly given.

Choice of runs open given to new employes in order as they qualify. Men who attend to their business are assured of permanent jobs.

Other Departments. A limited number of jobs at good wages are open in other departments.

The Railroad Commission of California on August 7, 1919, authorized the Southern California Edison Company to issue and sell to its consumers and the public the above stock, all money obtained from this issue being used for Capital Expenditures.

Southern California Edison Company is at present carrying out one of the largest hydro-electric power developments in the United States. Over \$20,000,000 will be expended within the next three years in the construction of hydro-electric power stations in Southern and Central California to supply electricity to these rapidly expanding markets.

The Company is now constructing a 40,000-horsepower plant on the Kern River and 22,000 horsepower additional capacity on Big Creek at an expenditure of \$8,000,000. This construction program is your opportunity for sound, profitable investing—a regular, dependable cash income. Put at least a part of your gains in a security that yields substantial cash returns regular every three months. When you become a profit-sharing partner in the company you act upon a long record of successful achievement in serving the public.

The development of Southern California has only begun and this Company will grow with the community. Its lines extend over 10 counties, serving over 233 cities and towns and supplying power in the intervening rural districts.

YANKS' HUN BRIDES
CAUSE OF TROUBLE

NEW YORK, Aug. 19.—German brides of American soldiers are on their way to the United States after precipitating a strike among the French waitresses at Hotel Petrograd, the Y. W. C. A. Hostess House in Paris, and causing more, or less of a tumult in Brest.

Scarcely before the Peace Treaty was signed one hundred and forty American doughboys were married to as many German women despite the rigid rules against fraternizing with the enemy which had held, supposedly, up to that minute and the next day twenty-two brides were on their way to Brest via Paris, chaperoned by a lieutenant, and accompanied by two husbands—both sergeants.

Miss Eleanor Wood, in charge of the Y. W. C. A. Bureau for War Brides in Paris, met the brides at the station to take them and their luggage to Hotel Petrograd, the largest Y. W. C. A. Hostess House in Paris, while she tried to arrange for their passports.

Arrived at the Hostess House, the brides were taken into breakfast. Suddenly one of the maids heard the enemy tongue. She sent the news around. The maids struck. They would not serve one of the enemy though peace had been declared the day before. Service was suspended for five minutes while the brides ate on—placidity. Finally the strike leader was suspended and peace restored. That night they left for Brest.

Henceforth brides from Germany or Luxembourg will be sent straight through to the port and will not be permitted to stop in Paris.

Trained Nurse Advises People

"I was a great sufferer of stomach and liver trouble and cannot say enough in praise of Mayr's Wonderful Remedy. It has done so much for me and I am recommending it to other sufferers. I was a trained nurse in Marine and other hospitals years ago, therefore many come to me for advice. I certainly received great benefit from Mayr's Wonderful Remedy." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and cures the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At druggists everywhere.

Hurler Reuther Helps Red Team in Race for Pennant

Pitcher Wins Twelve Out of
First Fourteen Games In
Which He Played

CINCINNATI, Aug. 19.—If the Reds win the pennant—and they've got a great chance—don't overlook Walt Reuther when tossing out the bouncers. Walt is a big per cent of the Red team. In the first fourteen games in which he figured his wins were twelve and his losses two.

Any pitcher who can travel away past the half-way mark and only lose two games is some pitcher.

'Round Coast League Bases

Lyle Bigbee allowed the Tigers only ten hits. However, he walked ten and lost for Seattle, 12 to 2.

The league leaders then clinched last week's series by defeating the Bees, 4 to 2, despite the latter's shifts in lineup.

Curly Brown of the Angels' crew is again topping the Coast League pitchers. Gould, Salt Lake, is just five points behind him.

Jacques Fournier will play with the Angels again today. A \$50 fine figures in his come back after a recent scrap on the field.

Remember the lecture on Christian Science tonight at Clune's Theater.

BEST PLAYERS WILL
BE SEEN IN GAMES

NEW YORK, Aug. 19.—Early play in the tennis singles championship of the United States, which starts next Monday on the courts of the West Side Tennis Club at Forest Hills, L. I., will bring together some of the best players of the game, including a match between Fred L. Alexander, former internationalist, and Gerald L. Patterson, the Australian.

The draw was an odd affair, the old "weeding" process having been abandoned. The uncertainty places probable champions against each other in very early competition.

S. Howard Voshell and Conrad Doyle will come together in the first round. Norman E. Brooks fell into the second half of the draw, with very small opposition facing him.

STORM DAMPENS HOPE
OF CHALLENGE MATCH

BOSTON, Aug. 19.—A heavy storm dampened hopes for playing the challenge match for the nation doubles championship at the Longwood Cricket Club here today.

The contestants are Richard Vincent, New York, and William Tilden, Philadelphia and Norman E. Brooks and Gerald Patterson, Australian stars.

Watching the Scoreboard

Yesterday's hero: Carson Bigbee. His home run in the 13th gave the Pirates a 3 to 2 victory over the Phillies.

The Cardinals and Braves staged a big-time contest, the mill going ten rounds to a rainy draw, 1 to 1.

The White Sox and Athletics indulged in an old-time hitting muse, with the obvious result. The White Sox won, 11 to 6.

Sometimes Babe Ruth wins ball games, but yesterday he heaved wild to the plate, the Browns winning, 4 to 3.

A trio of runs in the eighth inning brought the Tigers out on the long end of a 4 to 2 count over the Senators. Ping Bodie staged a two-base error, which, combined with Cleveland hits, was too much for the Yankees, who lost, 2 to 1.

Man Wanted, Graham Furniture Co.

WILLS BEATS CLARKE

SYRACUSE, N. Y., Aug. 19.—Harry Wills, New Orleans negro heavy-weight champion, defeated Jeff Clarke, Joplin, Mo., in the fourth round of a scheduled 10-round boxing bout here last night.

YOUR HEADLIGHTS
ARE ILLEGAL

THE law insists that your headlights must be adjusted--the installation of lens alone, does not place you within the law. Lights must focus at a given point while car is carrying a capacity load and to meet this requirement it will be necessary in many instances to bend the headlight brackets on those cars that have no adjustment.

We Will Adjust Your Lights

A special space in our garage has been arranged for testing lights and we will be open each evening for this purpose. Men in charge of this work have been supplied with information to correctly fix your headlights.

Get Your Headlights Changed at Once

They must be changed to conform to the law by August 22.

Have Them Changed Right

Don't spend money for non-glare lights unless you know they fully satisfy the requirements of the new law. Our MACBETH, OSGOOD and SHALER LIGHTS passed the highest test of the State University and conform absolutely with the new law. Come in and get yours now, and avoid trouble.

MACBETH LENS

There are as many reasons why you should put Macbeth Lenses upon your car as there are nights.

There is no reason for you to continue to take chances with ordinary or inferior lenses. Macbeth Lens experts, recognized the world over as leaders, because of their experience in making lenses for battleships, light-houses, railroads, searchlights, etc., have after long study and experimenting perfected the Green Visor lenses. They comply with laws, make the roads safe and give you a more efficient light.

News from Orange County Towns

CHURCH CAMPERS ARE CAUGHT BY STRIKE

Huntington Beach Fall Fair Committee Fix Fees and Program

HUNTINGTON BEACH, Aug. 19.—The Advent Christian conference closed here Sunday evening after a very interesting and profitable time so far as their work was concerned, but when the time arrived for returning home Sunday and Monday they were not having as good a time owing to the strike on the P. E. railway. Everything was tied up here all day Sunday, with but few cars running Saturday and likewise Monday, so many of those in attendance at camp meeting telephoned their friends to come after them by auto, and some made the second trip to help convey the many friends home.

Meeting of the Brethren Church will convene in camp on the 21st and continue for ten days, which will close the camping season here for this year. Arbanar has had six gatherings this year and it is being planned for more gatherings in the years to come.

The management during the present season has been exceedingly good under the direction of Hon. F. D. Mather, assisted by Rev. O. W. Reinus, and everything that could be done for the convenience and comfort of campers has been looked after with promptness.

The Chamber of Commerce general committee on the Fall Fair program met with the various sub-committees Thursday evening at the library room. Among the many subjects taken up for action before the committee was the fixing of an entrance fee. The general discussion brought out the unanimous decision that some fee should be charged, and on motion of Judge Copeland the entrance fees were fixed as follows: Single entrance, good for all day and evening, 25 cents; children from 6 to 14, 10 cents; season ticket for children, 25 cents; for adults, 50 cents.

Arrangements have been made whereby the Orange County Teachers' Institute will hold a one-day session in Huntington Beach during the second day of the fair, October 3. The meetings will be held both during the day and evening in the grammar school auditorium. This will also be known as children's day at the fair. There are about four hundred and fifty teachers in the county and about nine hundred pupils, which will mean a large gathering at the fair that day. On Saturday, the third day of the fair, there will be a grand gathering of all the state societies of Southern California who will hold a picnic in the pavilion on the beach, where tables and seats will be provided. Free coffee will be furnished by the Chamber of Commerce; a general program with noted speakers in attendance will be carried out. C. W. Warner is chairman of the committee having this matter in charge and he invites correspondence with all state societies and hereby extends a cordial invitation for all to attend. Personal invitations will be sent out so far as their officers' names and addresses can be learned.

Other points of interest to the public will be given out from time to time relative to the fair as the various plans are formulated.

So far as feeding the crowds that will gather at the fair, the Woman's Club will have that matter in hand and all will be looked after.

Mrs. (Pon) Endicott left Friday for Aberdeen, Wash., for a visit with her parents, the occasion being their fortieth anniversary.

L. B. Stearns and family arrived Friday from Yuma to spend a month's vacation at the beach. He reports things in a prosperous condition in that country.

W. L. Paul, son of C. A. Paul, who has been attending the law school at Harvard for the past two years, is expected home about September 1st for a short visit with his parents.

E. A. Jacobson and wife of Riverside with his brother and wife from Pennsylvania are spending a two weeks' vacation at the beach. They recently returned from a month's trip through the Yosemite Park. Mr. Jacobson is an engineer on the Salt Lake railroad and formerly lived in this city.

BUENA PARK BRIEFS

BUENA PARK, Aug. 19.—About forty members of the local chapter Order of the Eastern Star motored to Huntington Beach Friday evening, where a delicious picnic supper was enjoyed, after which beach sports and a dip in the ocean finished the round of pleasure.

Miss Jessie Kirkpatrick of Whittier, spent the week-end with Miss Wanita Simpson.

Mr. C. D. Kennedy, president of the Walnut Growers' Association of Hemet, was a guest of Mr. and Mrs. C. E. Ritter Friday and Saturday.

Mrs. Uttenweiller and daughter, Katherine, were in Los Angeles Friday.

Mrs. C. H. Sweet and Mrs. B. F. McFall of Phoenix, Ariz., visited at the Mayhew home Saturday.

Miss Florence Robinson has returned from a two weeks' visit with friends at Inglewood.

Between the dark and the daylight Thursday, August 14th, the Buena Park postoffice moved to its new location beside the big White Store.

The library board has posted notices for bids for lots on which to locate the new library.

Rev. Chas. Schofield of Boston, occupied the pulpit at the Congregational church Sunday morning.

Buena Park promises to be a real live town this evening, when the Women's Club will furnish entertainment and refreshments to those who attend the dance at the Chili dryer.

Ray Duncan and Richard Nelson are at Big Bear for a week.

Word has been received here that the Warren family have had a taste of forest fire fighting. Mr. Warren and son, Thomas, distinguished themselves by their efforts in extinguishing the fire which threatened the resorts near Little Bear.

Miss Elsie Milner of Inglewood, is a guest at the Robinson home this week.

WOMEN WORKERS IN BRITAIN VERSATILE

LONDON, Aug. 19.—Women workers in Britain are getting a wonderful reputation for versatility.

Before the war there were certain dual posts that every one recognized—the cook-housekeeper, nurse-housemaid, lady-help, etc., but nowadays demands are growing more complicated than this.

Advertisers in the want columns of the daily papers ask for hyphenated helps of varied accomplishments such as nurse-chauffeuse-secretary, while recently a business man advertised for "a shorthand-typist, capable of keeping accounts, acting as secretary, driving a car, and taking charge of a child of eight."

Nearly all the advertisements for secretaries stipulate that applicants must be able to drive a car.

Girls who are willing to become hyphenated employees do not as a rule find that the salaries offered are any higher than those given for one sort of service only. They do, however, reap a little benefit from the fact that there is less monotony in work of such varied nature and, according to the employment bureaus, these complicated advertisements attract more applicants than those which offer employment in only one capacity.

ALL POLY BOYS WILL WEAR UNIFORMS

But Girls' Clothes, at Least First Semester, Will Suit Individual Taste

All boys attending the Santa Ana high school this year will, as in the past year, be members of the cadet corps and will wear the uniforms regularly prescribed for cadets, according to announcement today of Principal D. K. Hammond, who has already sent out form letters to prospective students on this subject. A new feature of the cadets this year will be regular rifle practice. First year students will register Sept. 8 and school will begin Wednesday, Sept. 10.

First year the matter of having uniforms for girls students was discussed and considered at length by the Girls' League and Parent-Teacher association, but no action was taken, and at least during the first semester this year no uniforms for girls will be required. Undoubtedly, however, the question will be up again this year and some uniform may be decided upon before the beginning of the second semester.

Information of interest to Poly cadets is contained in the following statement from the commandant:

In Article 1, Section 7 of the California Rules and Regulations for the government of the High School Cadets, under which we are organized, the following rules are specific:

"Said high school cadets shall wear a uniform similar to that prescribed for the infantry of the National Guard of California, excepting that instead of shoulder straps, cadet chevrons indicating rank, and distinctive collar ornaments, shall be worn. The Adjutant General of the State of California is authorized to issue to the high school cadets the required cap and collar ornaments and chevrons."

Article V on uniforms says:

"Each cadet shall keep himself supplied with the regulation uniform of his school, which he must maintain in good order. While on duty as a cadet he shall wear no other dress except by permission of the Commandant."

This uniform shall consist of:

Khaki breeches (cotton or wool), khaki leggings (optional half-leather, cotton or wool), khaki shirt (cotton or wool) or blouse (if blouse be worn, shirt is optional); if shirt of regulation type be worn, blouse is optional; black four-in-hand tie (if blouse be worn, tie is optional); regulation khaki hat, shoes (optional). We recommend the tan army shoe for endurance and comfort. No hat bands or insignia of any kind need be purchased.

These are furnished and are on hand. Only commissioned officers may wear leather puttees. Caps may be worn by commissioned officers and by the band members.

For Dysentery and Flux.

R. E. Bower of Dixie, Brooks Co., Ga., has used Chamberlain's Colic and Diarrhoea Remedy for years and says he finds it to be one of the best family medicines of his knowledge, that it is the best medicine he ever saw for dysentery, flux and kindred diseases. When used for dysentery castor oil must also be given.—Adv.

MARCH FIELD IS TO BE GAINER BY TRANSFER

Sacramento Surprised at Order Abandoning Flying Location

Riverside Press: The reported abandonment of Mather Field with the transfer of its enlisted personnel to March Field, coupled with the movement of officers from Rockwell Field at San Diego, is of considerable interest to Riverside.

Three men arrived from Rockwell Field yesterday and fifteen others are due in a few days to enter the instructors' school for fliers, which will be established at March Field. No official order has been received at the local field regarding the transfer of Mather Field men to Riverside.

Here is what the Sacramento Bee says of the abandonment of the northern field:

Mather Field has been ordered abandoned.

Orders from the chief of air service to this effect were received Tuesday afternoon by Captain T. S. Voss, adjutant at the local field.

Following receipt of the news, General Secretary H. S. Maddox of the Consolidated Chamber of Commerce, commenced action to save the field to Superior California.

The abandonment order came as a distinct surprise to Sacramentoans and also to the officers stationed at Mather Field.

Although War Department officials have not been favorable to a continuation of Mather Field in view of the reduction of air service throughout the nation, representatives in Washington, D. C., thus far have been able to save the local station. It was the general supposition that Mather Field has been accepted as a permanent military station, therefore the order came as quite a surprise. A congressional committee recently announced its plan to inspect the field.

Men Go to March Field.

The enlisted personnel, 175 men, will be transferred to March Field, near Riverside. What will become of the 25 officers is as yet unknown. The work of abandoning the field will not commence until orders are received through the western department of the army in San Francisco. The order calling for the abandonment came in the form of an advance copy to Mather Field headquarters yesterday afternoon.

In view of yesterday's order, the proposed flight to San Francisco to welcome the fleet September 1 probably will be abandoned. It was the plan to fly eighteen De Havilland planes from this city to San Francisco as a welcome to the fleet under the personal command of Captain Voss.

Twelve of the new planes, which were to be used in the flight, arrived and were unloaded at the field yesterday.

Captain Voss has not as yet received instructions as to the disposition of government property at Mather Field. He opines that the planes will be shipped, other property stored, and the field finally left in charge of civilians.

Following the transfer of officers and enlisted personnel, four men will be left for a few weeks to care for any minor details or late correspondence that might come in.

KEEP BOWS AS SOUVENIRS OF ARCHERY

D. Edson Smith Recalls Days When Indian Weapon Used In Popular Sport

No boy who read the article in Saturday's Register in which Chief Tahan gave directions for the making of bows and arrows was more interested than was D. Edson Smith of 505 West Seventeenth street. Smith has been interested in archery as a sport for several scores of years, three at least, and there is not much about bows and arrows that he does not know.

He has in his possession two wonderful bows. It is now forty-five years since he purchased them.

"There have been a number of periods since I was a boy," said he, "when archery became quite popular. It has been many years now, however, since it was in vogue. Golf and lawn tennis seem to have taken its place."

"I well remember in 1886 that an archery club was formed in Santa Ana, with G. D. Allen, who started the sporting goods store known now for many years as the A. E. Hawley store, as the moving spirit. We used to hold our tournaments on the square where the courthouse now stands."

"Indians made excellent bows," continued he, "but intelligent white men improved upon them greatly."

The larger of the two bows that Smith has is six feet long. It is made of lance wood, a wood that is found in the West Indies, and is backed with a heavy strip of rawhide glued to the wood. Grooved horn is used to make the ends of the bow. It takes a pull of fifty pounds to draw an arrow its length. By practice Smith got so that he could make excellent records on a target set 100 yards away.

When archery was popular forty-five years ago, Smith bought beside the bows a number of fine arrows. He still shows one of those wonderful arrows, which cost \$12 a dozen. It has a steel tip and is pointed with hard wood inlaid to a shaft of soft wood.

HOW TO STOP BEING NERVOUS

Nothing Like Plain Bitro-Phosphate to Strengthen Weak Nerves and Increase Strength and Vigor

According to a noted French Scientist, the most effective remedy for nervousness, insomnia and ailments due to depleted nerve force, is a form of organic phosphate known among druggists in this country as Bitro-Phosphate.

It is described as a substance which is similar in composition to the phosphorus naturally found in brain and nerve cells and, being easily and quickly assimilated, the work of creating nerve force, strength and vigor begins immediately it is taken into the human system.

There are many reports of astonishing results from its use, some showing remarkable improvement even in stubborn cases of long standing nerve weakness. As there are many kinds of phosphates, care should be exercised to procure the genuine Bitro-Phosphate.
